### **PAY-to-PLAY NEW WORLD ORDER**

This timeline shows how insiders sell access & manipulate politicians, police, intelligence, judges and media to keep their secrets

Clintons, Obamas, Summers were paid in cash for outlandish speaking fees and Foundation donations. Sycophant judges, politicians, academics, bureaucrats and media were fed tips to mutual funds tied to insider stocks like Facebook. Risk of public exposure, blackmail, pedophilia, "snuff parties" (ritual child sexual abuse and murder) and Satanism have ensured silence among pay-to-play beneficiaries. The U.S. Patent Office is their toy box.

# Introduction

The following 1990-2016 timeline and supporting facts provide unmistakable evidence of dereliction of duty, fraud, public corruption, the appearance of impropriety, racketeering, monopoly and anti-trust by senior United States government officials, Harvard and Stanford academics, judges, law firms and their commercial accomplices.

**American patent law itself has been hijacked by these individuals and their organizations.**

## President George Washington awarded the first patent

**The American economic engine is being dismantled by deep-pocket intellectual property thieves. They have made the U.S. Patent Office their private toy box.**

## Why patent protection is essential to America.

Constitutional quiz: What are the - only property rights that the Founders considered important enough to actually write into the Constitution?

Answer: patents and copyrights. ([U.S. Constitution, Article I, Section 8, Clause 8.](#)) President George Washington himself signed the first patent, U.S. Patent No. X0000001, on July 31, 1790.

The Founders knew the importance of innovation and invention and created the patent system to protect the young republic's inventors. They believed patents would grow the economy with new ideas that create new jobs and wealth. But without patent protection, inventors and their investors have no incentive to risk their time and treasure to do the hard work of inventing

**Leader Technologies** of Columbus, Ohio, **risked 145,000 man-hours** over five years with an investment of over **\$10 million** to invent the platform that enables social networking. **Leader legally filed** for patents that they believed would protect their invention.

But a pattern of public-private corruption—as shown in the following timeline—allowed the well-financed vendor of social networking to steal Leader's invention, reproduce the design, and then use their ill-gotten gains to perpetuate their crime. They excused their theft by falsely asserting that the technology system was "open source" (i.e., "free") software.

### The Social Networking Invention, U.S. Patent No. 7,139,761

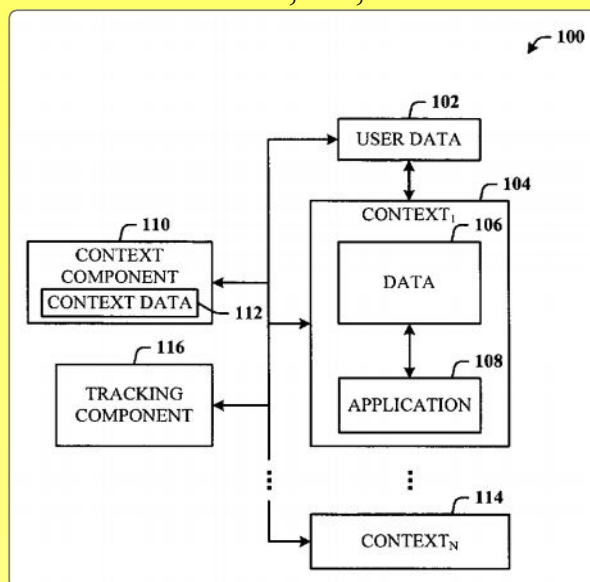

Fig. 3—This profound idea by Leader Technologies made large-scale Internet collaboration possible. Figure 1, U.S. Patent No. 7,139,761, McKibben et al, Nov. 21, 2006, **Dynamic Association of Electronically Stored Information with Iterative Workflow Change**—the platform that is social networking [086]

What inventor wants to spend years perfecting and patenting an invention that may then be stolen with impunity? What investor will trust his investment to a government that will not protect the entrepreneurial risk?

The American public must protect the inventors from the deep-pocket predators who have stolen this invention and use their ill-gotten gain to buy off judges, public officials and the mainstream media. No inventor is safe if they are allowed to succeed.

When inventors are not rewarded for their inventions, society suffers. China, once known for inventions like paper and fireworks, is now notorious for industrial espionage and intellectual property theft and for copying rather than innovating.

Do we want to risk becoming another China?

To foster the inventive spirit that made America the world's innovator, we must protect and reward our inventors, and address the corruption that has allowed companies like Leader Technologies, the true inventors of social networking, to be fleeced by the system that was supposed to protect them.

# Preamble

This is the story and timeline of the theft of the invention called "social networking." The thieves are a group we call the "Cartel." and "Deep State." Their motives are ancient. They yearn for money and power. Their goal is a "New World Order." Theft of Columbus, Ohio innovator Leader Technologies' invention enabled them to unify their communications, monitor and control "the masses," and fulfill their rapacious grab for your assets and your liberty.

Bookmark: #Fig-4

Fig. 4—Barack Obama's and George Soros' New World Order is founded on the premise that bold lies are often required to achieve their goal of "fundamental transformation."

The U.S. court-proven facts are that Columbus, Ohio innovator, Michael McKibben, and the company he founded, Leader Technologies, invented social networking in the late 1990's. Prior to that, McKibben had re-built AT&T's email system in record time for release with Microsoft's much ballyhooed Windows 95.

In 6, Leader was awarded its first patent. However, once the Deep State learned about Leader's invention from an unscrupulous patent attorney and adviser to IBM and the NSA, they wanted it so badly they broke many laws to get it. The invention enabled them to create "The Internet of Things" or "The Internet of Everything" where they could permanently control the digital economy in all its aspects: communications, banking, law, energy, finance, elections, defense, technology, communications, media, healthcare, education, entertainment, politics, guns, food, environment and news.

This sounds like Hollywood fiction, but as you will read in these pages, it is all too real.

The roots of the modern day "One World Order" agenda go back to the 1700's and philosopher Emmanuel Kant's essay. In the 20th century, President Woodrow Wilson's failed effort to form The League of Nations eventually became The United Nations. The disciples of this soulless, mechanistic agenda include George Soros, Bilderberg Group, the 1910 Jekyll Island Club duck-hunt, World Economic Forum (Davos), Council on Foreign Relations, Wall Street, Silicon Valley, and a slew of politicians, judges and bureaucrats. They benefit personally through investment gains and insider information.

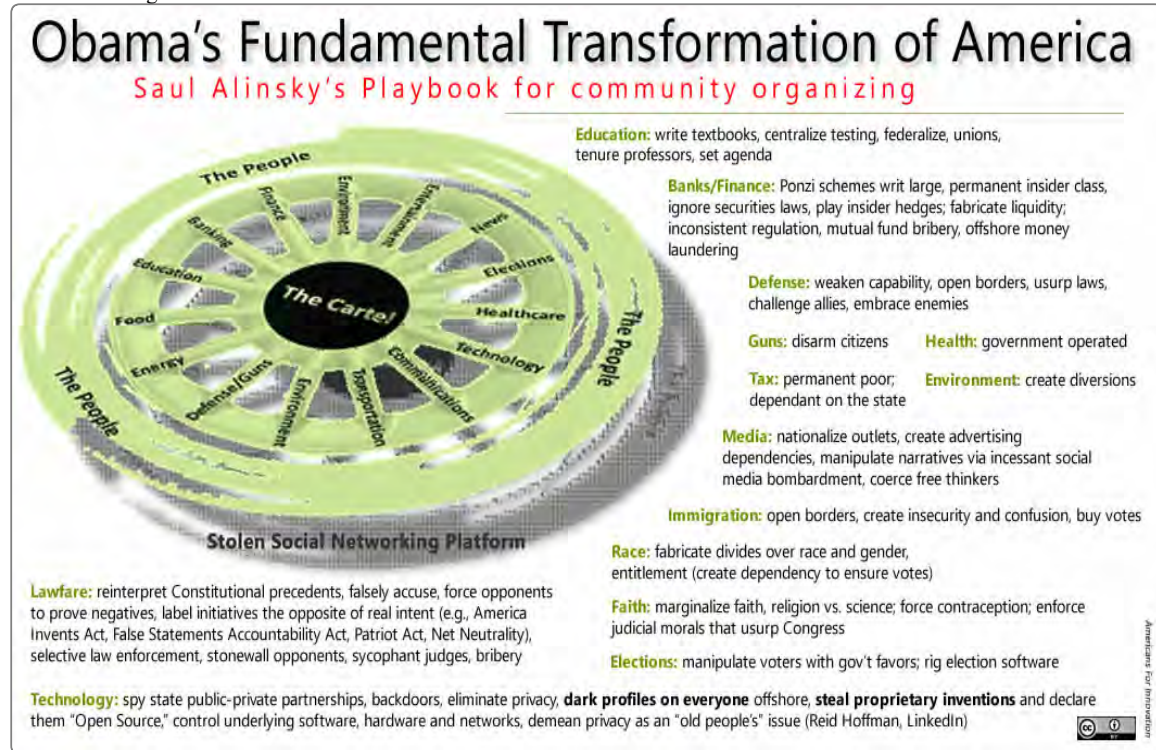

Fig. 5—Barack Obama's "Fundamental Transformation of America" has unashamedly attacked, overtly and by stealth, every major set of moral assumptions that have formed the basis of American society and culture since the founding of the United States.

World government is the notion of a common political authority for all of humanity, yielding a global government and a single state. Such a government could come into existence either through violent and compulsory world domination or through peaceful and voluntary supranational union. In such a world, national constitutions must be subservient to the single state.

# Proponents of A New World Order are betting against America

On Jan. 05, 2011, new world order godfather and post-WWII Hungarian immigrant to America, George Soros (György Schwartz), stated that the "new world order" will be a healthy, if painful [violent] adjustment." He continued, "China will be the 'engine driving it forward and the U.S. will be actually a drag that is being pulled along through a gradual decline in the dollar.'"[294]

## Education or Propaganda? The minds of our youth are targeted

George Soros

Nowhere is more telling of the Deep State's agenda than the uproar over Common Core. Critical to the Deep State agenda is the centralized control of education via Common Core in secondary education and M O O C (Massive Open Online Course) in higher education. Just like the re-education camps of every totalitarian ideology before them (like Mao, Lenin, Pol Pot, Stalin, Hitler, Brownshirts, Komsomol), the Deep State works to control the "narratives" that our children learn.

Where the facts do not fit the Deep State narrative, the facts are ignored or altered. They want to grow obedient, docile, faithless worker bees for their factories. Just like George Orwell envisioned in 1984, gone will be free thinking, free will and individuality. Liberty will be replaced by oligarchies, a permanent under-class, doublespeak, political correctness, disrespect, reading between the lines, hate, intolerance, inequality and brutality.

The digital part of this remaking of education is well down the path. Most secondary schools use Google Docs almost exclusively for their document sharing. In universities, M O O C curricula are rapidly replacing individualized instruction in favor of the allegedly more "rich" (cleansed and censored) content of "Big Data" and "The Cloud."

Universities are being connected using The Ohio State University's IBM / Microsoft / Oracle / SAP / Eclipse data center as an international M O O C network hub that Presidential candidate John Kasich approved. The supply of Deep State shiny things to lure educators, parents and students into this morally dark world appears unstoppable as the "users" mainline on the digital drugs.

This Leader v. Facebook timeline (below) reveals Deep State names, places and illegal acts.

Hillary Clinton's political adviser, Anne-Marie Slaughter (2009-2013) implemented her book *A New World Order* (Princeton Press 2004) when she worked for Hillary at the State Department. She started promoting Facebook at the State Department in 2009, even though Facebook did not have the intellectual property rights. Of note, Slaughter has Hungarian immigrant connections by marriage with Soros, Intel's Andy Grove and IDG-Accel Partners (China)'s John P. Breyer. Accel is Facebook's 2nd largest shareholder.

Lying is a Saul D. Alinsky tactic (and also permitted in the Koran when Muslims are dealing with Westerners, Christians and Jews Qur'an 3:28).

To gain control of the world's information (and thus its money and power), the Deep State employs the political organizing tactics of Saul D. Alinsky. Hillary Clinton is an expert. She wrote her undergraduate thesis on Alinsky and corresponded with him [299]. Barack Obama employs Alinsky's bible—12 Rules for Radicals (Random House 1971).

Tellingly, Alinsky dedicated 12 Rules to Lucifer, who he calls the original radical. Lucifer is one of the names for Satan, the Devil, the Evil One and The Dragon (The Book of Revelations 12:2; 20:2).

**The Obamas and Clintons employ Alinsky's habitual lying technique:** Keep the enemy confused and on its heels working to keep up with your lies. Lies also often become truths if repeated incessantly. For example, the lies about Zuckerberg and Facebook in The Social Network movie are accepted as the truth by many.

In the movie and in sworn testimony, Zuckerberg claimed to have invented Facebook in a few weeks, while preparing for finals at Harvard, and drinking. Contrast that with the 145,000 person-hours and over \$10 million spent by Leader Technologies. Zuckerberg's assertion is totally illogical, yet it persists.

Obama's and Hillary's lies are legion. Their whoppers include: (1) Obama's oft-repeated promise "If you like your doctor, you can keep your doctor," (2) Obama's claim to be a Christian to fool voters, (3) Hillary's fabrication that a video caused the attack on the U. S. Embassy in Benghazi, and (4) Hillary's ever-changing private email stories which are being investigated by the FBI, with new evidence proving she exposed the highest classifications of intelligence.

They have also brazenly ignored and violated laws. They encourage others to violate U.S. laws themselves, and not respect traditional authority—our borders, the U.S. Constitution and the people responsible for carrying out our laws, such as our police and military personnel. The Justice Department's U.S. Attorneys have become little more than mobsters themselves—A fish rots from the head down.

The Deep State's corrupt tactics in Leader v. Facebook were purposely confusing in order to discourage the public from learning the truth

Fig. 6—Anarchist Saul D. Alinsky wrote his Rules for Radicals in 1971. Hillary Clinton wrote her undergraduate thesis on Alinsky and sought his counsel subsequently. Barack Obama used Alinsky's 12 Rules in his community organizing in Chicago. Alinsky extolled Lucifer as his model radical.

### Saul Alinsky's 12-Step Community Organizing Program:

1. Power is not only what you have but what the enemy thinks you have.
2. Never go outside the expertise of your people.
3. Whenever possible, go outside the expertise of the enemy.
4. Make the enemy live by its own book of rules.
5. Ridicule is man's most potent weapon.
6. A good tactic is one your people enjoy.
7. A tactic that drags on too long becomes a drag.
8. Keep the pressure on. Never let up.
9. The threat is usually more terrifying than the thing itself.
10. If you push a negative hard enough, it will push through and become a positive.
11. The price of a successful attack is a constructive alternative by the enemy.
12. Pick the target, freeze it, personalize it and polarize it.

Fig. 7—Saul D. Alinsky's 12 Rules for Radicals (1971).

The following timeline is complex. That is an Alinsky tactic: Put so many layers of lies on the onion that most people won't take the time to peel them away.

Americans for Innovation has been peeling away the layers of this Leader v. Facebook judicial corruption onion for years. **The Deep State's onion core is now exposed.** Names, places, dates, crimes and motives have been uncovered thanks to the dedicated work of many.

Soros' New World Order wants to force its will on America and the planet. In their morality, you would be reduced to merely a consuming animal—"a useful idiot" (Alinsky). In their world, faith, hope and love are the antiquated values of weak people. They also have little need for any constitution, law or regulation that stands in their way.

\* Alinsky used the phrase "a useful idiot" is sometimes attributed to Vladimir Lenin, although this is in question.

Lure users, young and old, into "The Cloud," then ambush them

Theft of Leader Technologies' invention of social networking was critical to the Deep State's plan. With control of the digital essences of our lives ("The Internet of Things" aka "The Cloud"), the Deep State could achieve their new world order more quickly.

Which side are you on?

The moral, philosophical and cultural battle lines are drawn. If we choose the globalist Cartel, the "nanny state" of entitlements will eventually overtake us like it collapsed the Soviet Union. On the other hand, if we choose the timeless values of the U.S. Constitution, we must protect and restore Leader Technologies' property rights. Then, we empower real, ethical innovators to rebuild our digital networks in a way that takes us to higher ground.

In our increasingly global economy, the U.S. has a major advantage—our inventiveness and entrepreneurial spirit. But we are allowing our advantage to evaporate. If someone had backed up a truck to the "back door" of the U.S. and stolen trillions of dollars worth of property, we would be Cartel outraged and more protective in the future. This is exactly what has happened over the past few years—yet there is no defensive uproar. We cannot allow this thievery to continue.

## Is "the New World Order" too big to fail?

Some ask if social networks are now "too big to fail." The last time Americans thought that was when our too-big-to-fail banks were bailed out in 2008. The taxpayer was stuck with the bill while the bankers continued to pay themselves bonuses. Not a single banker was jailed, fired or even fined. Is this the New World Order we have to look forward to? The answer is yes, unless WE THE PEOPLE put a stop to this profligacy.

These social networks can and will be reconfigured to provide the positive benefits without the abuses of security and privacy. However, they will not be run by the current crop of "public-private" criminals, who must be run out of town, this current President and his cabinet among them.

Read on.

"disaggregated" into self-defined networks. From that point on, their pledges of loyalty to the U.S. Constitution became optional.

**A New World Order is coming.**  
**Were you invited to the**  
**networking party? (Didn't think so.)**

In the dramatic up tick in White House polemics about Islam, it becomes important to note that unlike Christianity and Judaism where lying is a sin, Muslims are permitted to lie to Westerners, Jews and Christians. Qur'an 3:28.

Barack Obama's hollow claims of Christian faith, and his embrace of Islam in the White House, would certainly explain why his administration lies without shame to achieve its Slaughter-esque disaggregation goals.

This disaggregation governance philosophy was introduced by Anne-Marie Slaughter to the U.S. State Department on Apr. 12, 2004. She was then a Princeton international law professor and had just published her book, A New World Order (Princeton University Press 2004). In 2009, she served as a chief political advisor to Secretary of State Hillary Clinton (2009-2013).[\[276\]](#)

[Read synopsis](#)

In evident excitement about the coming presidency of Barack Obama, Princeton re-published the book (never mind that the 2008 election was still two months away). Slaughter's ideas have provided a suitably academic rationale for the institutionalization of crony capitalism and the establishment of a permanent power class for those deemed worthy of an invitation to the networking party ("The Cartel" or "Deep State").

Fig. 9—A New World Order by Anne-Marie Slaughter. Princeton University Press (2004).

New world order, or just another justification for corruption and crony capitalism? "The state is not disappearing, it's disaggregating, meaning it is simply operating through all its different branches, through regulatory agencies, through judges, through legislators, and they are all networking with one another."

—Anne-Marie Slaughter, U.S. Dept. of State speech introducing "A New World Order" Apr. 12, 2004.

The Deep State needed a global technology platform, so they stole Columbus, Ohio innovator Leader Technologies' invention of social networking. Leader's invention overcame inherent "scalability" problems the Deep State was having with legacy IBM, Microsoft and Xerox client-server platforms.

IBM pumped in a \$40 million "donation" to The Eclipse Foundation. Leader's patent attorney, James P. Chandler, III (who was also counsel to IBM), secretly fed Leader's invention to Eclipse. Then a Who's Who of companies like SAP, Borland, Cisco, Intel, Oracle, Wind River, Nokia, HP and Microsoft signed up to get Leader's invention at a breathtaking rate.

Leader's invention enabled Eclipse members to unify their "disaggregation" networking efforts around the planet. In his hubris, Harvard Law professor James P. Chandler described his theft of his client's invention for the Deep State as "in the greater good."

## A world of interdependent, self-regulating international networks where the U.S. Constitution is in the way

Tellingly, Slaughter **never mentions the U.S. Constitution as a guiding principle** in her speech introducing A New World Order to the State Department on Apr. 12, 2004. Neither does she mention Leader Technologies on whom she and her cronies rely to pull off their heist. [\[285\]](#)

# Overview

A "public-private" plan to privatize the management of American security and intelligence appears to have hatched from this Chandler-Freeze association in the early 1990's.

On Jun. 07, 1993—five months into Bill Clinton's first term as President in 1993—Clinton advisors James P. Chandler and John D. Podesta hosted an encryption conference in Washington, D.C. The clear objective of that conference was to create a rationale to give Clinton's Deep State intelligence people a universal backdoor key to all digital communications.

During 1993-1994, Bill & Hillary Clinton's political enemies were being killed of like flies, as revealed by their long term Arkansas political "fixer," Larry Nichols, producer of The Clinton Chronicles (1994).

Tellingly, on Apr. 17, 1995, Bill Clinton signed Executive Order No. 12958[271] Classified National Security (first published on Jan. 01, 1995). This order appears to be the legal genesis for an illegal Deep C.I.A. Spy State run out of the White House used to gather dirt on individuals across the planet. Chandler very evidently wrote this executive order and provided the continuity for this illegal agency through the Clinton, Bush and Obama presidencies.

During this time, Chandler and Freeze privately formed and repeatedly flipped a company named Eurotech, Ltd. that supplies software and hardware to the spy state. A decade later, they both served as directors for Columbus innovator, Leader Technologies, until that is, Chandler took custody of a copy of Leader's source code on June 05, 2002 and that code then magically appeared in the "open source" programming code of the IBM Eclipse Foundation just 11 weeks later.

Leader Technologies invention was social networking (which these spy state aficionados clearly wanted for their schemes). It solved a "scalability" problem that Microsoft's, IBM's and Xerox's older client-server architectures were choking on.

Leader's innovations were sent immediately to Chandler's long-time crony client and technology supplier to the secret Deep State—IBM, where the future Patent Office director David J. Kappos was waiting for it. As just stated, eleven weeks later, Leader's innovations first appeared in IBM's Eclipse Foundation release 2.0.1 with illegal IBM copyright claims. Eighteen months later, with Larry Summers now its president, Facebook emerged at Harvard. Facebook was just the first of numerous NSA data gathering fronts to emerge from IBM Eclipse, a ring leader in this scheme.

David J.  
Kappos

It would be macabre if their choice of "The Eclipse Foundation" name alluded to the damage done by their in-your-face eclipse of the U.S. Constitution.

**Big Brother is watching you.**

Graphic: meltybuzz

Fig. 14—Stylized IBM "Big Brother" warm and fuzzy spy state logo. Works better than IBM's previous World War II client's logo, the Nazi spy state:

The Nazis were a major purchaser of IBM computers starting before WWII. They used them to catalog Jews, Poles, gypsies, homosexuals and anyone else they wished to murder in their "Final Solution." Of course, the Nazis did not consider eliminating these "undesireables" to be murder since they reclassified them as subhuman. By contrast, Nazis considered Russians as pigs to be brutally disciplined.

Nazi labor minister Dr. Robert Ley, former Head of the German Labor Front, on the treatment of Russian slave workers (Essen, Germany, October 1942):

"The key item on the agenda was the question of 'how to treat the Russians.' ... Robert Ley, as usual, was drunk. And when Ley got drunk he was prone to speak his mind... With so much at stake, there was no room for compassion or civility. No degree of coercion was too much, and Ley expected the mine managers to back up their foremen in meting out the necessary discipline. As Ley put it: 'When a Russian pig has to be beaten, it would be the ordinary German worker who would have to do it.'" ([Adam Tooze](#), *The Wages of Destruction: The Making and Breaking of the Nazi Economy* (Allen Lane 2006). p. 529.) (emphasis added)

Behind this national security smokescreen (it's for the greater good), these men concocted a legal sophistry that lured American citizens into agreeing to give away their sacred Constitutional rights to privacy in exchange for "free" online services.

With these "end user license agreements" in hand, the NSA was given the legal clearance to spy on Americans. Much, if not most, of this legal vision is the brainchild of James P. Chandler, who now operates a fifth column within the Obama Administration, probably even vetting all FOIA requests for the White House.

Chandler is the author of the Economic Espionage Act of 1996 under Bill Clinton. One of Bill Clinton's last acts as president was to appoint Chandler to the National Infrastructure Assurance Council ("NIAC") just two days before he left office on Jan. 20, 2001. [024] Chandler directed ongoing traffic for this spy state agenda, starting under Clinton, through Bush, and now under Obama.

Bill J. Clinton

To facilitate the "Big Data" collection, these three presidential administrations cleared the regulatory path ways for Wall Street and Silicon Valley to form companies to give the illusion of choice—but don't be fooled, they are all NSA "old boy" creations.

Indeed, Washington, D.C. insiders report that a central actor in this corruption, Clinton security adviser James P. Chandler, has famously declared that the "prime" defense contractors (Boeing, Lockheed, Northrop Grumman, General Dynamics and Raytheon) are merely revolving door agencies of the federal government. Chandler has merely extended his philosophy of an insider's game to the control of the Internet, exhibited by the NSA's abuse of privacy.

James P.  
Chandler, III

## The legislative, executive, judicial and Free Press institutions of our Republic stopped working as designed

The quid pro quo for American intelligence under the Executive branch was that these private companies would feed funds and data to the NSA and government insiders without Congressional approval (the Legislative branch). Blackmail, extortion, intimidation and coercion by insiders is inescapable. It is just what bad people do.

The quid pro quo for the cooperation of the Judicial branch was new wealth from specially organized Wall Street mutual funds and waiver of judicial ethics rules that would look the other way when these mutual funds were disclosed. What judge or judicial employee will resist the tipsters subsequently?

The quid pro quo for the Free Press was income from advertising and voter manipulation. In exchange, the "lame stream media" stopped holding the powerful accountable because the Silicon Valley purveyors of "Big Data" and their bankers fed them advertising. They have become data junkies. Sadly, the press began using the unverified "narratives" of the spy state conspirators as their primary sources, thus reinforcing the lies. The Social Network is a perfect example of a lying "narrative" about Mark Zuckerberg and Facebook that the public believed because the mainstream media never questioned its veracity.

## Constitutional checks and balances have degenerated into competing oligarchies and secret alliances

In short, this "public-private partnership" scheme pressed by Hillary Clinton adviser, Anne-Marie Slaughter ("A New World Order"), has destroyed Constitutional checks and balances. In its place are unaccountable spy state oligarchies based on ill-conceived and self-serving "international networks."

Anne-Marie Slaughter

This agenda has emerged out of such globalist organizations as the Trilateral Commission, Bilderberg Group, Bohemian Grove, European Union, rouge C.I.A., rogue NSA, Yale Skull & Bones, Council on Foreign Relations (CFR) and the World Economic Forum (Davos). In a nutshell, Soros believed that the British Pound was overvalued and was headed for a devaluation. So, he borrowed over ten billion Pounds in a 'Go for the jugular' move. He then immediately converted the Pounds into German Marks. When the markets learned about Soros' actions, other traders followed suit. This run on the Pound triggered a devaluation. Soros then used his Marks to buy back the now devalued Pounds and **pocketed \$1.4 billion profit. All in one day.**

The 1,336 pounds (606 kg) urea nitrate–hydrogen gas enhanced device (supplied by an FBI Informant, see below) was intended, according to the official propaganda narrative, to send the North Tower (Tower 1) crashing into the South Tower (Tower 2), bringing both towers down and killing tens of thousands of people. Tellingly, Yuri Milner does not disclose this association in any of his current biographies. Milner's activities between 1994 and 2007 are murky.[270]

## Conspiracy of Silence : Pedophilia blackmail binds the Deep State shadow government's evil power

On May 03, 1994 , TV Guide listed the Yorkshire TV documentary Conspiracy of Silence was scheduled to air on the Discovery Channel. This documentary exposed a network of religious leaders and Washington politicians who flew children to Washington D.C. for sex orgies. Many children suffered the indignity of wearing nothing but their underwear and a number displayed on a piece of cardboard hanging from their necks when being auctioned off to foreigners in Las Vegas, Nevada and Toronto, Canada

At the last minute before airing, unknown Congressmen threatened the TV Cable industry with restrictive legislation if this documentary was aired. Almost immediately, the rights to the documentary were purchased by unknown persons who had ordered all copies destroyed.

A copy of this videotape was furnished anonymously to former Nebraska state senator and attorney John De Camp who made it available to retired FBI Agent Ted L. Gunderson. While the video quality is not top grade, this tape is a blockbuster in what is revealed by the participants involved.[\[642\]](#) Click here for Ted Gunderson's Biography PDF.[\[644\]](#)

NOTICE: This timeline entry on Rwanda is longer than our normal entries due to an evident and concerted effort by MSM to push a false narrative on the public about who was really behind the merciless slaughter of 1 million innocent civilians. That narrative is evidently a false flag pretext created by a rogue C.I.A. on behalf of its globalist mining and eugenics interests. This entry attempts to straighten a very crooked record that shockingly winds back to Arkansas and the Clintons.

## Rwandan "Genocide:" Central African rare earth minerals & diamond sources for The Clinton Foundation, George Soros & their computer technology globalist collaborators

Click to enlarge

By Jul. 18, 1994, Paul Kagame took power in Rwanda after an alleged "Rwandan Genocide." This massacre of almost 1 million Rwandans now appears to have been a C.I.A.-fabricated eugenics program that also served as a false flag pretext. This pretext provided the cover to seize control of rare earth minerals in the resource-rich neighboring Congo. Those minerals are critical for the manufacturing of computers, military surveillance devices, aerospace, defense, nuclear, satellites, mobile technology and TVs by the rogue C.I.A. Deep State shadow government "Big Data" spy operation globally.

Paul Kagame

Kagame had been head of military intelligence in the Ugandan Armed Forces after being **trained by the C.I.A.** at the U.S. Army Command and Staff College (CGSC) in Leavenworth, Kansas. **Tellingly, the official "Rwandan genocide" mainstream media and Congressional narrative MAKES NO MENTION of Kagame's extensive C.I.A. training, much less any U.S. complicity. [660].**

Also missing from the official MSM narrative is the sworn testimony before Congress (May 2001) and in France (2002) by NSA military intelligence analyst Wayne Madsen who testified: "A French military intelligence officer said he detected some 100 armed U.S. troops in the eastern Zaire conflict zone," Madsen's statement began: "Moreover, the DGSE [French secret service] reported the Americans had knowledge of the extermination of Hutu refugees by

Tutsis in both Rwanda and eastern Zaire and were doing nothing about it. More ominously, there was reason to believe that some U.S. forces, either Special Forces or mercenaries, may have actually participated in the extermination of Hutu refugees." (pp. 9-10).[658]

**Their goal was/is control of Rare Earth Minerals vital to manufacturing of computers, TVs, cameras, mobile phones, "Big Data" & "Big Brother" surveillance**

The beneficiaries from the death and martyrdom of 1 million Rwandans were globalist technology companies who were securing their access to rare earth minerals needed in the manufacture of electronic devices. These minerals are plentiful in the mines of Central Africa. These natural resources should bring great wealth to the Central African economies, but do not because they are extracted under contracts with corrupt, globalist-backed New World Order dictators and strongmen. These companies are members of:

(1) C.I.A.'s **In-Q-Tel** private venture capital company, (2) **National Infrastructure Assurance/Advisory Council (NIAC)**, (3) the **National Venture Capital Association (NCVA)**, (4) **The IBM Eclipse Foundation**, (5) **Obama's Technology CEO's Council**, and (6) **Obama Silicon Valley outpost of the U.S. Digital Service** funded with \$1.5 billion in funds from Google's **Eric Schmidt** ... among others. Graphic: AFI.

President Bill Clinton did nothing to stop this 100-day so-called "Rwandan Genocide" that brought to power The Clinton Foundation protégé, Paul Kagame—a C.I.A.-trained member of the minority (8.4%) Tutsi tribe.

The beneficiaries were global technology players in electronic capacitors essential to aerospace weaponry, mobile phones, computers, TVs, disk drives and chips manufactured by Sony, Compaq, Microsoft, Dell, Ericsson, Hewlett-Packard, IBM, Nokia, Intel, Lucent, and Motorola.

The official narrative is suspect and appears to have been a C.I.A. false flag pretext. NSA analyst Wayne Madsen concurs in his book abstract for Genocide and Covert Operations in Africa, 1993-1999 (Mellen Press, 1999): "The USA was not merely an innocent bystander to the events that led to the systematic mass killing of humans. It also introduces the world of international mining and the dubious nature of the network of investors and agents of influence that support the mining industry. It considers how the unlikely confluence of African, American, Southeast Asian and even Arkansas politics had tremendous consequences for many disparate players, including the Clinton administration, the Habyarimana regime in Rwanda, Marshal Mobutu of Zaire, and the peoples of Sierra Leone, Congo, and Angola."

Hutus were 91.6% of the population. On Apr. 06, 1994, moderate Hutu President Juvénal Habyarimana's plane was shot down by two French-supplied Russian SAM-16 Gimlet missiles (captured in Iraq in Feb. 1991, Le Figaro) along with fellow Hutu passenger and Burundi President Cyprien Ntaryamira. Habyarimana's assassination is said to have ignited Hutu-Tutsi ethnic tensions in the region and a genocidal rampage against minority Tutsi. The facts support an opposite story .

On Apr. 07, 1994, the next day, a well-funded and well-armed C.I.A. agent and Tutsi named Paul Kagame, who commanded the Rwanda Patriotic Front (RPF) replete with Ugandan mercenaries, said he would resume the civil war if the alleged Tutsi killings did not stop. The next day, he pressed the attack. According to the official narrative, some one million Tutsis were allegedly killed by genocide-incited Hutus angered by Habyarimana's plane crash—in less than three months! This narrative breaks down when one does the math . . . and also realizes that **two million Hutus simultaneously fled to Zaire.**

## U.N. / U.S. / C.I.A. genocide narrative hides globalist rare earth mineral mining & depopulation agendas

According to the officially-accepted U.S., U.N. and RPF (Kagame, Tutsi) narrative, 1,074,017 Tutsis were killed. However, the total population of Rwanda was 7,099,844. Tutsis comprised 8.4% or 596,387. **Therefore, the RPF / U.N. / U.S. / Tutsi claim is twice the total number of Tutsis available to kill! A former RPF officer, Abdul Ruzibiza, testified that the RPF counted Hutu corpses as Tutsi corpses! [657]**

Extensive testimony in the Beatrice Munyenyezi trial provides clear evidence that an elite 100-man U.S. force directed Kagame's RPF forces with the aim of depopulation and plunder of rare earth mining resources in neighboring Congo. Extensive satellite imagery proves that the U.S. Department of Defense, NRO

(National Reconnaissance Office), DIA (Defense Intelligence Agency) and C.I.A. were fully aware of the slaughter of Hutus and did nothing to stop it. Further, the evidence shows that Kagame killed as many of his fellow Tutsis as he did Hutus, then blamed all the Tutsi deaths on the Hutus.[658]

Why would two million Hutus flee into Zaire if they were about to annihilate Kagame's Tutsi minority as claimed? In the process, Kagame used the RPF and the genocide pretext to kill some 25-45,000 Hutus in Rwanda. Then, he pursued the two million \*\*\*Hutu\*\*\* refugees into Zaire where he killed 200,000 more, and in the process overthrew the government of Zaire.

By Jul. 04, 1994—in just three months—Kagame/Clinton completed the Tutsi takeover and the consolidation of globalist power over Central Africa's **rare earth minerals** and diamonds, sometimes referred to a "blood minerals" and "blood diamonds."

George Soros

Three globalist culprits appear to predominate: The Clinton Foundation , George Soros and his Open Society Foundations , and Maurice Tempelsman . In 1992, George Soros had almost destroyed the UK Pound and netted \$1 billion overnight which he used to found the Open Society Foundations.

Belgian-born Maurice Tempelsman has a long and bloody history in Africa. When Congo's first Premier, Patrice Lumumba, pledged to return diamond wealth back to the newly independent Congo in the early 60's, Tempelsman, who began with De Beers in the 1950's, helped engineer the coup d'etat that consolidated the dictatorship of 29 year-old Colonel Mobutu (Zaire/Congo), and the coup against Ghana's Kwame Nkrumah; diamonds were at stake in each.

Maurice Tempelsman

Tempelsman has a long and dubious history with the C.I.A. In the 1960s Tempelsman hired as his business agent the CIA station chief in Kinshasa (Zaire/Congo), Larry Devlin, who helped put Mobutu in power and afterward served as his personal adviser. From March 3, 1977, Tempelsman briefly held the title of honorary consul general for the Congo/Mobutu in New York City. With such unfettered access to the Congo's rich mining resources in diamonds and rare earth minerals needed in high technology manufacturing, Tempelsman is clearly a go-to financier for the globalist New World Order plans.

Tempelsman is a Democratic party deep pocket, a regular supporter of the campaigns of John Kerry (D); Ed Royce (R); Tom Daschle (D); Barack Obama (D); Maxine Waters (D); John Rockefeller (D); Richard

Gephardt (D); Howard Wolpe (D); Patrick (D) and Edward Kennedy (D); and the 1988 win of George

H.W. Bush (R). Tempelsman also exploited ties with Anthony Lake, Clinton's National Security adviser, who intervened at the U.S. Export-Import Bank on Tempelsman's behalf.

According to blood diamond expert Janine Roberts, "Declassified memos and cables between former U.S. presidents and State Department officials over the last four decades directly linked Tempelsman to the destabilization of Zaire/Congo, Sierra Leone, Angola, Zimbabwe, Namibia, Rwanda and Ghana."

President George H. W. Bush served as an advisor to Tempelsman's company, Barrick Gold Corporation. Barrick directors include: Brian Mulroney, former PM of Canada; Edward Neys, former U.S. ambassador to Canada and chairman of the private PR firm Burston-Marsteller; former U.S.

Senator Howard Baker; J. Trevor Eyton, a member of the Canadian Senate; and Vernon Jordan, one of Bill Clinton's lawyers. Barrick Gold's mining partners have included Adastra Mining-formerly named America Mineral Fields (AMFI, AMX, other names), formerly based in, of all places, Hope, Arkansas, Bill Clinton's hometown.

A major beneficiary of this Central African mining exploitation is Sony Corporation. Sony's executive vice president and general counsel, Nicole Seligman, worked for Williams & Connolly LLP.[662]

Williams & Connolly LLP is the **same law firm** that has been representing Hillary Clinton's stonewalling of the IRS and Benghazi House Oversight Hearings. **They incorporated The Clinton Foundation on Apr. 13, 1999.** They were also chosen by rogue C.I.A. Deep State shadow government lawyer James P. Chandler to represent the government in the first prosecution of the Federal Trade Secrets Act in 1999. Williams & Connolly's evident collusion begs the question **"When is a law firm engaging in sedition and crimes against humanity?"**[657]

# THE HIGHLANDS FORUM :

## "Shadow Elitist Pentagon Intelligence Cronyism"

**In ca. Feb. 1995** (inception date is vague and sometimes published as in 1994), The Highlands Forum hosted by Richard P. O'Neill, Beltway political and economic consulting sycophant, held its first private gathering sponsored by the Office of the Secretary of Defense (OSD) and co-chaired by the Principal Deputy Assistant Secretary of Defense (PDASD(C31)) and the DARPA Director of Net Assessment. The meeting is said to have helped plant the idea of "network-centric warfare" in the minds of the nation's top military.

Richard P. O'Neill,  
convenor of  
Highlands  
Forum / Group

Andrew W. Marshall,  
Pentagon  
Director of Net  
Assessment

"A thousand thinkers have participated over the past 12 years, attending the sessions to which they have the most to contribute."

Brian Friel, GOVEXEC.com (undated)

Brian Friel

"I'm an active member of the (informal) Highlands community, and it is a wonderful thing. The Forums are an opportunity to meet with high-level military officials in a meaningful way. As a civilian and a pretty skeptical one, I'm impressed with the practicality of the operating military. They are not sitting around making policy; they work on the ground to make things happen. It's definitely worth helping them to be more effective and accountable, which is the goal of Highlands."

Esther Dyson, Chairman, EDVenture Holdings

Esther Dyson

"Dick is an amazingly talented individual and tremendous 'connector' in terms of **bridging between the public and private sector**. Through the Highlands Forum I have had a chance to establish productive, long-term relationships with individuals in defense and intelligence communities, with influential individuals in NGOs, with fascinating authors and independent thinkers, and with other notable figures from the commercial world. Highlands' approach to catalyzing relevant conversation and high-level connection is, in my

Raymond  
Ozzie

viewpoint, unique and uniquely valuable."  
Ray Ozzie, Chief Software Architect, Microsoft

"The Highlands Forum is a unique operation. It examines key topics and brings together the people who really understand what's happening. Dick has a unique ability to frame the questions and bring the right people together. He does a lot of homework, he has a huge network of very smart people, and he's amazingly poised and comfortable with high egos. I have attended quite a few Highland Forums and always find they hold my attention and teach me things I didn't know. **The Highlands Forum started as a unpublicized operation within the Defense Department many years ago**, and blossomed into one of the most enduring and useful forums for assembling specialists on technology of every sort. It's a real treat to attend."

Stephen D.  
Crocker

**Steve Crocker, CEO of Shinkuro; Obama's chair of ICANN (Internet Corporation for Assigned Names and Numbers); Crocker oversaw the ICANN transfer of management to a U.N. body which is probable treason given Crocker's collusion with Clinton, Podesta and Chandler. See Timeline, Oct. 01, 2016 "Obama's Internet Fraud and Betrayal.**

**The Federal Advisory Committee Act (FACA) also called the Open Government law restricted how the government could solicit ideas from special interests. The Highlands Forum and later The Highlands Group evidently ignored those conflict of interest safeguards and reveled in its crony capitalism. Thus, the globalist Deep State shadow government's takeover of the Internet was shrouded in garden variety greed, powermongering and illegality from inception. [807] [808] [809] [810] [811]**

## The New World Order Secret White House intelligence masters, created by Clinton / Chandler to enable a globalist takeover

On Apr. 17, 1995, Bill Clinton signed Executive Order No. 12958<sup>[271]</sup> Classified National Security (first published on Jan. 01, 1995<sup>[409]</sup>):

"This order prescribes a uniform system for classifying, safeguarding, and declassifying national security information . . . Sec. 5.4 (1) There is established an Interagency Security Classification Appeals Panel" comprised of:

1. Secretary of State
2. Secretary of Defense
3. Attorney General
4. CIA Director
5. US Archivist
6. Assistant to the President for National Security
7. Chaired by the President.

In addition, in a subsequent executive order, Barack Obama made the U.S. subservient to foreign treaties on Dec. 29, 2009 in Executive Order No. 13526<sup>[272]</sup>—treaties that later included the Trans-Pacific Partnership (TPP) (Sec. 2.3(b)(9)—**documents would not be declassified if such action would "violate a statute, treaty, or international agreement."**) This could allow unscrupulous characters to cause documents to be hidden forever based on variable terms in foreign treaties, e.g., Iranian nuclear deal (Joint Comprehensive Plan of Action—JCPO), TPP (Trans-Pacific Partnership), TiSA (Trade in Services Agreement, i.e.,

## President Dwight D. Eisenhower's warning about the rise of a corrupt military-industrial complex

Click video to watch 2 min. 30 secs. of President Dwight D. Eisenhower's farewell address on Jan. 17, 1961

On Jan. 17, 1961, President Dwight D. Eisenhower warned the world about the dangers for tyranny arising from a military-industrial complex. As the AFI investigation has uncovered, that day came on Sep. 29, 1999 when the C.I.A. began investing in hardware and software companies, thus essentially nationalizing, largely in secret, America's emerging digital infrastructure. This gave the C.I.A. an unprecedented and unaccountable ability to spy on everyone without a warrant. <https://youtu.be/orEurY6HdXU> | [Raw \\*.mp4 video](#)

Note the slippery attorney double-speak that permeates these founding security documents of the New World Order. Bill and Hillary Clinton had found a new scam that overshadowed their previous successes at drug smuggling and money laundering in Mena, Arkansas—the military-industrial national security apparatus that former President Dwight D. Eisenhower warned of.[\[531\]](#)

Former Secretary of State and National Security Adviser Robert M. Gates said in his book *Duty* that the White House national security staff ballooned from 50 people in 1993 to more than 350 under Obama by 2011.

Bill Clinton's Executive Order 13526 (Apr. 17, 1995) set this escalation in motion. The resulting private, unauthorized White House spy/defense agency is clearly affirmed by Secretary Gates in his book.[\[530\]](#)

Robert M. Gates: "The root of my unhappiness in the Obama administration was therefore not the NSS [National Security Staff] policy initiatives but rather its micromanagement—on Haitian relief, on the Libyan no-fly zone, above all on Afghanistan—and I routinely resisted it . . . NSC staff in the early 1990s, professional staff numbered about fifty. Today the NSS numbers more than 350."

House intelligence operation via Executive Order 12958.[528] Such events gave the insiders justification to consolidate intelligence powers around the President, outside Congressional oversight, through a string of executive orders.

According to Ted L. Gunderson, FBI Special Agent In Charge (ret.), the alleged bomber, Timothy McVeigh, was a mind control soldier of the C.I.A.'s MKUltra program. He says the bomb maker was a C.I.A. Agent named Michael Riconosciuto. He said that a fertilizer bomb, as the official narrative alleges, did not have the power to create such devastation. Gunderson also discovered that the C.I.A.'s top MKUltra mind control expert, Dr. Jolly West, paid a secret visit to McVeigh before the trial.[639] See Ted L. On Jul. 12, 1995, Lotus sold to IBM. Lotus was the go-to communications and collaboration platform of the C.I.A. By the late 1990's, the government began to discover that Lotus Notes could not handle the large scale collaboration requirements of the Internet. That is when IBM advisor James P.

Chandler and IBM stole the invention through a cut out that they created named the IBM Eclipse Foundation on Nov. 29, 2001, David J. Kappos was IBM's chief inside intellectual property counsel. ## 57. Illegal Chinese donations to Clinton's Presidential re-election to buy influence

In 1996, Chinese-American fundraiser Johnny Chung disclosed that he illegally funneled money from Chinese officials to Bill Clinton's 1996 election bid. He secretly filmed a tell-all video as an 'insurance policy' - because he feared being murdered by the Clinton machine. He smuggled it to trusted friends and family with instructions to release it to the media in the event of his untimely death because he believed he was at risk of being assassinated. Chung is believed it still be alive and living in China. The video was obtained by author and historian Doug Wead for his new book *Game of Thorns*, which chronicles the Clintons' long-running operation to buy political influence in Washington, D.C.[611]

The False Statements Accountability Act ("FSAA") was sponsored by a one-term freshman Senator William J. Martini (NJ) who later became a federal judge. It included a bizarre Subsection (b) that permits judges, attorneys and parties to lie to Congress, courts and agencies without liability.<sup>[273]</sup> This law has been affirmed several times by 9th Circuit Judge Susan P. Graber, a Clinton appointee. In *U.S. v. McNeil* she wrote: "Congress . . . chose to exempt from criminal liability certain kinds of lies to the federal government . . . Statements made in judicial proceedings are excluded from liability under the statute by subsection (b)." *US v. McNeil*, 362 F. 3d 570 (9th Cir. 2004) at 574.

Fig. 17—On Oct. 11, 1996, Congress made it legal to lie to Congress and the courts without criminal liability. (Believe it. It is true.)

In *U.S. v. Horvath* she wrote: "criminal liability does not attach to materially false statements submitted by a party to a judge in a judicial proceeding, even if the party makes the statements knowingly and willfully." *US v. Horvath*, 492 F. 3d 1075 (9th Cir. 2007) at 1081.

James P. Chandler very likely played a central role in this unconscionable new 1996 FSAA provision—passed in the fog of the EEA—that permits lying to Congress, courts and administrative proceedings. Did Congress even read this law before approving it almost unanimously? Current presidential candidate John Kasich voted for it, as did John Boehner and Nancy Pelosi.

Milner's partner during their Facebook "pump and dump" investing phase Russian oligarch Alisher Usmanov, now dubbed "The Richest Man in Russia" and a close Putin ally.

Harvard's Larry Summers and his disastrous Russian voucher system, promoted while he was chief economist at the World Bank, must take much of the blame for rise of the uber-corrupt Russian oligarch.

Larry H.  
Summers

Alisher

Yuri Milner

Why? Because on paper the voucher system sounded reasonable: sell stock (vouchers) in the Soviet state companies to the private market. The problem was the average citizens only held Russian Rubles which were worthless. The only people in Russia holding Western currency to purchase Summers' vouchers were purchased by the only two groups in the collapsing Soviet Union with hard currency: corrupt Communist officials and Soviet organized crime.

Yuri Milner and Alisher Usmanov are Larry Summers creations. Pundits believe Summers tapped this connection as the Deep State plans to pump Facebook's pre-IPO valuation to \$100 billion took shape starting in about 2006-2007. By 2008, Milner, Goldman Sachs (Lloyd Blankfein) and Morgan Stanley were maneuvering personnel into place in London and Dubai to process the more than \$33 billion that bailout director Larry Summers would manage for newly-elected President Barack Obama. ## KOSOVO HOAX WAR: Bill Clinton, George Soros, neocons, globalists, UN, EU, rogue C.I.A., NATO supported Islamist KLA over Christian Serbs to establish jihadi foothold in Europe

Between Mar. 5, 1998 and Jul. 11, 1999, The Kosovo War was fought between the Federal Republic of Yugoslavia (largely Serbian Orthodox Christians) and the so-called Kosovo Liberation Army (KLA). The KLA was supported by Islamist foreign volunteers from Albania, Turkey, North Africa, Yemen, Saudi Arabia, Afghanistan and Egypt. The KLA was funded by Islamist organizations and drug smuggling.

There have been many reports of abuses and war crimes committed by the KLA during and after the conflict, such as massacres of civilians, prison camps, and destruction of medieval churches and monuments. However, the mainstream media focused its (now familiar) fake news blaming the Serbian Army for atrocities that were committed by the KLA.

**The Medieval St. Mark's Monastery, near Korisa, Prizren, built in 1467, looted, set on fire and totally destroyed by Islamist Kosovo Liberation Army (KLA) explosives, July 1999, one month after the rogue C.I.A. UN, NATO (KFOR) took over Kosovo. There have been no arrests. Lord have mercy.**

Before

After

In total, 155 Serbian Orthodox Christian churches and monasteries were destroyed. Despite the confirmed reports of KLA atrocities, Congressman Dana Rohrabacher (R-CA) was the first member of Congress to advocate arming the Islamist KLA. He compared US funding to France funding American Revolutionaries. Tellingly Rohrabacher was Chairman of the Subcommittee on Space and Aeronautics from 1997 to January 2005 that funded the National Laboratories - the heart of the U.S. military-industrial complex.

Dana T.  
Rohrbacher

George J. Tenet

A report prepared under C.I.A. Director George J. Tenet and summarized by him in

testimony to the Senate Armed Services Committee on February 2, 1999 referred to the Serb "massacre at Račak." [650] This alleged massacre became the pretext for NATO intervention against Serbia. However, an AIM REPORT (Accuracy in Media) has exposed the alleged Račak massacre as a HOAX. It never happened. The alleged photos of the massacre were staged. [649]

C.I.A. Director George J. Tenet told the Senate: "Moreover, funds pouring into KLA coffers from the Albanian Diaspora\* have increased sharply following the massacre at Račak [later proven to be a hoax in the AIM REPORT, Apr A, 2000]". [649] Hindsight is 20-20: The C.I.A. Director Tenet is clearly carrying the agenda of globalist forces intent on upsetting the Christian-Islamic balance of power in that tumultuous region in preparation for the immigration waves planned later by the destabilization of Syria, Iraq and Afghanistan.

\*These funds are more likely coming from George Soros and his globalist (one world government) Open Society Foundations. Albania's population is under three million people—the size of Chicago. Albania is the size of Massachusetts. Albanians in "diaspora" are not wealthy on the whole. Therefore, Tenet's comments evidently rely on the ignorance of the Senators about Albania's demographics—making his assertions not credible with any thought or questioning at all.

Remarkably, the US, C.I.A., UN and NATO all joined the fight in support of the Islamist KLA against the largely Orthodox Christian Serbs in rapid succession between Jun. 9 and Sep. 24, 1998. The orchestration of this globalist collusion is evident. [666] [667] [668]

**On Aug. 28, 1998**, James P. Chandler, III and Paul Mogin, Williams & Connolly LLP, concluded the first prosecution of the Economic Espionage Act of 1996 ("EEA") drafted by Chandler for President Bill Clinton—US v. Hsu (1998).[\[237\]](#) [\[238\]](#) [\[239\]](#) [\[240\]](#) [\[241\]](#)

In Nov. 2000, James P. Chandler, Leader Technologies' patent attorney turned patent thief, compiled a Department of Justice guideline titled "PROSECUTING INTELLECTUAL PROPERTY CLAIMS." This guideline appears to be the playbook these swamp rats are using to try and take down President Donald J. Trump. While Chandler's name doesn't appear on the document per se, his trade secrets, economic espionage and intellectual property handiwork is notoriously known to Beltway intelligence, legal and political insiders. Search "chandler" in this timeline for a multitude of verifications.

This remarkable document places a number of Washington, D.C. lawyers together at the beginning of the Clinton Administration in the mid 1990's. These same people are currently prominent in the Trump-Russia witch hunt, along with their Deep State partners in the mainstream media, DNC and RNC with whom they collude.

Chandler's collaborators in these 2000 guidelines included Robert S. Mueller, III and Eric H. Holder, Jr. who were then U.S. Attorney and Assistant Attorney General respectively. It was intended to track entities using communication methods such as cell phones and e-mail. James P. Chandler, III was an advocate of Trailblazer for President Bill Clinton.

Numerous NSA whistleblowers including J. Kirk Wiebe, William Binney, Tom Drake, Ed Loomis, and House Permanent Select Committee on Intelligence staffer Diane Roark complained to the Department of Defense's Inspector General (IG) about waste, fraud, and abuse in the program, and the fact that a successful operating prototype existed (ThinThread), but was ignored when the Trailblazer program was launched.

The ThinThread budget was \$19.5 million, whereas Hayden's Trailblazer budget was \$4 billion. Hayden went for \$4 billion. Binney contends Americans are less safe with the \$4 billion spend because more bulk data makes catching bad guys harder, not easier, as compared to his targeted ThinThread program. His ThinThread successor, Tom Drake, was subsequently indicted in April 2010 under the Espionage Act on trumped up charges to silence his criticism of the illegal NSA programs. Clearly, these conspirators only used "national security" as the smokescreen for their greed and power-mongering.

According to [William Binney](#), General Hayden, Vice President Dick Cheney, CIA Director George Tenet, and President Bush later used 9/11 as the excuse to start collecting **all** data from all American citizens through the Trailblazer program initiated under President Bill Clinton. So, Hillary Clinton presumably knew about Trailblazer as well. President George W. Bush approved the program in secret (illegally), without contract authorization, in cooperation with AT&T (Project Stellar Wind), and without approval from the FISA Court. Only two other people knew: the chair and ranking member of the House Intelligence Committee at the time Porter Goss (R-Fla.) and Nancy Pelosi (D-Calif.). However, even before Binney whistle blew on them, they had already signed off on the illegality.

William Binney, NSA whistleblower, Patriot

The NSA created three separate sections to accomplish the warrantless surveillance of Americans: (1) the Metadata Analysis Center (MAC), (2) the Email Analysis Center (EAC) and (3) the Content Analysis Center (CAC) groups, in their new, "rogue" (Binney) Advanced Analytics Division (AAD).  
[487]

QUESTIONER—JIM GILMORE (PBS FRONTLINE INTERVIEW): "So you retire. Why do you retire?"  
[Binney retired/resigned on Oct. 31, 2001]

ANSWER—BINNEY : "Well, I couldn't be an accessory to the violation of the constitutional rights of everybody in the country. I couldn't be an accessory to that, or an accessory to other crimes being committed, like exposing all this data to the FBI. It was acquired without a warrant, you know. And this is the kind of data that they would use to arrest people, which they did. So I couldn't be a party to that. That's just a total violation of our justice process."

On Oct. 01, 2000 ,

investigative journalist Alex Jones released his documentary film *Dark Secrets: Inside Bohemian Grove* (Oct. 01, 2000). Since 1873, the world's rich and powerful have held secret meetings in the ancient redwood forest of Northern California. Members of this so-called "Bohemian Club" include current and former Presidents Eisenhower, Nixon, Reagan and Clinton. The Bush Family maintains a strong involvement. Each year at Bohemian Grove, members of formerly all male "club" don red, black and silver robes and enact an occult ritual in front of a giant stone owl.

They sacrifice a human being in effigy to what they call the "Great Owl of Bohemia." For the first time in history, an outsider (Alex Jones) infiltrated Bohemian Grove and captured the ritual on video on Jul. 15, 2000, as printed on a member's program obtained by Jones titled "Cremation of Care."

This Bohemian Grove "Cremation of Care" cultic rite borrows worship elements from ancient Druidic rites of human and animal sacrifice, the Tyre-Babylonian-Canaanite Cult of Molech or Baal (associated with child sacrifice; mentioned in numerous Biblical passages) and Scottish Masonic rites.

Subsequent encounters with various Bohemian Grove attendees, including Newt Gingrich, Bill Clinton and Richard Nixon reveal power brokers who either found the proceedings "the most faggy god damn thing" (Nixon), admitted their membership and became angry at being exposed (Gergen), **denied membership (lied)** and **mocked the questioner** (Clinton), or were **evasive** (Gingrich; Bill Richardson, former NM governor, Clinton Energy Secretary and UN Ambassador, Obama Commerce Secretary). Nevertheless **Bohemian Grove members hide many secrets from the American people.**

Bill Clinton's White House counselor and current CNN political commentator David Gergen resigned from Bohemian Club on Jun. 11, 1993 before coming to the White House. It is unknown when he joined the Bohemian Club. Gergen served in both Republican and Democrat Administrations:

On Mar. 21, 2001, Chandler and McKibben met with Battelle Memorial Institute[029] and presented a plan to implement Leader's invention at Harvard University with IBM's prospective involvement. Those ideas were discussed almost three years before Facebook launched on Feb. 4, 2004. Subsequent events show that Battelle, Chandler, Fenwick and IBM took the ideas to Harvard on their own. The Livermore Labs executive involved with Chandler was Jeffrey Wadsworth, who then moved to Battelle, magically. Michael McKibben, confidentially presented a "Leader University Initiative" proposal to Chandler and Battelle. The idea was to reach out to IBM and Harvard as a first implementation of Leader's invention. This initiative was stolen by IBM / The Eclipse Foundation / James W. Breyer (Accel Partners LLP) and renamed "Facebook" within two years.[205]

On May 17, 2001 , former NSA analyst and Africa specialist, Wayne Madsen, told a Congressional Hearing that the tragic slaughter of one million Rwandans in 1994 was not based on Hutu-Tutsi tribal hatred gone wild. That was the widely reported narrative that was reinforced by many globalists, including Presidents Clinton, Bush, Obama, many in Congress, Wikipedia and the Hollywood film Hotel Rwanda. Hindsight shows that the "Rwandan genocide" was a pretext for globalists to secure gold and rare earth mineral mines in Central Africa that were vital to the U.S. defense industry and Silicon Valley manufacturing of computers, mobile phones, TVs, surveillance devices, satellites and microelectronics. It is also evident that the murder of one million Rwandans served their eugenic depopulation priorities as well.[662]

Lindauer testified: "Throughout the summer of 2001, we were convinced the Twin Towers would be demolished, using a combination of explosives with the airplanes." Tr. 6:8-10.

"I made one fatal mistake. I requested to testify through proper channels ... I should have known better than to trust Congress. Thirty days after I phoned the Offices of John McCain and Senator Trent Lott, I woke to find the FBI pounding on my front door. At that point, I gained a new distinction as the second non-Arab American arrested on the Patriot Act, facing secret charges, secret evidence and secret grand jury testimony. I was held under indictment for five years without a Trial--and thrown in prison on Carswell Air Force Base in Texas for a year, without a hearing." Tr. 18:4-5; 17-25.

C.I.A. Whistleblower Susan Lindauer: "To Washington's greatest shame, the Patriot Act, which Congress proclaimed a key judicial weapon to break up terrorism in the United States, was first used to stop a whistle blower from telling the truth about 9/11 and Iraqi Pre-War Intelligence." As a result of this testimony Lindauer was declared mentality unfit—a tactic thought to have passed into history after it was exposed as a commonly used way to muzzle dissent in the former Soviet Union, replete with corrupt judges willing to falsely imprison targets on fabricated KGB charges. In Lindauer's case, her C.I.A.-compliant Judge Mukasey became Bush Jr.'s Attorney General as a reward.

To silence Lindauer's testimony to the 9/11 Commission, Lindauer was only the second non-Arab to be prosecuted under The Patriot Act. She was arrested on Mar. 11, 2004 and assigned to the corrupt Southern District of New York and Judge Michael B. Mukasey. George Bush later appointed Mukasey as Attorney General on Nov. 09, 2007.

Lindauer was held without a trial or even a hearing at Carswell Air Force Base (incarcerated in 2005) and ruled to be mentally unfit to stand trial. . The government tried to administer psychotropic drugs to further incapacitate her testimony on 9/11. She was released to Judge Loretta Preska in 2007. In 2008, a blogger began publicizing her illegal incarceration. The government dropped charges on Jan. 15, 2009. ## Warrantless surveillance plans in search of a suitable crisis: "Stellar Wind"

In July, 2001, John C. Yoo was hired into the Office of Legal Counsel (OLC) at the Department of Justice. He immediately began drafting a prescient "memorandum evaluating the legality of a hypothetical electronic surveillance program within the United States to monitor communications of potential terrorists." His memorandum, dated 17 September 2001, was addressed to Deputy White House Counsel Timothy E. Flannigan and entitled "Constitutional Standards on Random Electronic Surveillance for Counter-Terrorism Purposes." (PDF, p. 23)[633] It was the precursor to Project "Stellar Wind" order by President George W. Bush on Oct. 04, 2001 permitting warrantless surveillance of American citizens.

George W. Bush

James P. Chandler, III, NIAC member (see Jan. 18, 2001), was the chief outside counsel to the Department of Justice and the White House on intellectual property, trade secrets and economic espionage, and certainly was a chief architect of project "Stellar Wind," as would have been Chandler's protégé Deputy Attorney General Eric H. Holder, Jr.

Eric H. Holder, Jr.

James P. Chandler, III

Woo unilaterally argued that the Foreign Intelligence Surveillance Act (FISA) did not supercede the President's Article II authority, calling it a "merely providing a 'safe harbor for electronic surveillance.'" (PDF, p. 48).

Remarkably, Woo was the ONLY Department of Justice representative who knew about (was "read into") the project "Stellar Wind" President's Surveillance Program (PSP) authorizing the bulk surveillance of American citizens without a warrant, initiated by President George W. Bush on Oct. 04, 2001.

Tellingly, Yoo refused to be deposed by the Inspector General about this activity in 2009.(PDF, p. 18)[635]

Eurotech's executives were all close associates of Chandler, Major General James E. Freeze (U.S. Army, ret.), Leader's other director, as well as John M. Deutch, former C.I.A. Director (1995-1996). Chandler had pushed the Economic Espionage Act of 1996 through Congress as its principal proponent on Oct. 11, 1996.

Eurotech's founding chairman on May 16, 1995 was Randolph A. Graves, Jr., former Director of Aerodynamics at NASA Langley. He was also a director in Markland Technologies. Sub.[034]

Eurotech's first CEO in 1998 was Don V. Hahnfeldt, former Commodore of a Trident Nuclear Submarine Squadron.[035]

Don V.  
Hahnfeldt

James D.  
Watkins

Eurotech's second chairman was James D. Watkins, former Secretary of the Department of Energy (from Mar. 1989 to Jan. 1993). In Congressional testimony on Sep. 30, 1991, it was revealed that Watkins had commissioned "The Freeze Report" on Department of Energy security lapses authored by Leader director Freeze.[036]

On Dec. 13, 2000, Eurotech's beneficial owners included JNC Strategic Fund, Ltd., JNC-Opportunity Fund Ltd. and Diversified Strategies Fund, L.P., three multi-leveled offshore entities with offices in the Bahamas and Cayman Islands.[037] Such entities are structured to: (a) conceal the identities of the actual investors, (b) escape liability from U.S. securities and tax law, and/or (c) profit from manipulated declines in stock value via a scheme called "death spiraling."

On Dec. 13, 2000, Eurotech issued additional stock to JNC and Diversified, and had sold shares on Aug. 28, 2000 to Woodward LLC, another Cayman Island entity owned by Navigator Management LLC, David Sims, Director.[038] Sims is a South African living in Tortola, British Virgin Islands who controls numerous tax havens.[039] These entities include each of the Eurotech progeny through to The White Oak Group that enjoys over \$1 billion in current U.S. government contracts.[160]

Sims worked in concert with Stephen Hicks, a Canadian living in Ridgefield, Connecticut. Sims and Hicks have been sued a number of times for engaging in predatory financial schemes.[040]

Neither Chandler nor Freeze sought conflict of interest waivers as a result of these associations which conflicted directly with their Leader duties as directors and legal counsel.

106. On Aug. 09, 2001 , Chandler, having failed to obtain a copy of Leader's source code through his copyright filing activity two days earlier, then recommended to Leader to partner with his client, Lawrence Livermore National Laboratory (LLNL) in a research project program called a CRADA (Cooperative Research and Development Agreement). This recommendation appears to have been a ruse to cajole Leader into placing its source code in Chandler's custody. Chandler actually wrote himself into the agreement as custodian of Leader's source code whose innovations appeared in The Eclipse Foundation source code in their Aug. 29, 2002 release of Version 2.0.1 .[210]

**On Sep. 11, 2001**, the official narrative is that the September 11 attacks (also referred to as 9/11) were a series of four coordinated terrorist attacks ostensibly by the Islamic terrorist group al-Qaeda on the United States on the morning of Tuesday, September 11, 2001. The attacks killed 2,996 people, injured over 6,000 others, and caused at least \$10 billion in property and infrastructure damage and \$3 trillion in total costs.

Four passenger airliners operated by two major U.S. passenger air carriers (United Airlines and American Airlines)—all of which departed from airports on the northeastern United States bound for California—were ostensibly hijacked by 19 al-Qaeda terrorists. Two of the planes, American Airlines Flight 11 and United Airlines Flight 175, were crashed into the North and South towers, respectively, of the World Trade Center complex in New York City. Within an hour and 42 minutes, both 110-story towers collapsed, with debris and the resulting fires causing partial or complete collapse of all other buildings in the World Trade Center complex, including the 47-story 7 World Trade Center tower, as well as significant damage to ten other large surrounding structures. A third plane, American Airlines Flight 77, was crashed into the Pentagon (the headquarters of the United States Department of Defense) in Arlington County, Virginia, leading to a partial collapse of the building's western side. The fourth plane, United Airlines Flight 93, initially was steered toward Washington, D.C., but crashed into a field in Stonycreek Township near Shanksville, Pennsylvania, after its passengers tried to overcome the hijackers. It was the deadliest incident for firefighters and law enforcement officers in the history of the United States, with 343 and 72 killed respectively.

Credible questions have been raised by FBI whistleblowers and forensic engineers that the official 9/11 narrative is a hoax designed to jolt the American people and Congress into passing the Patriot Act which further consolidated the control of the Deep State shadow government into C.I.A. hands. Forensic engineers believe the blast signatures on the buildings in New York and Washington, and the Pennsylvania field look more like Raytheon cruise missiles than commercial jets filled with fuel. The absence of normal debris fields (luggage, personal effects, etc.) and absence of even a single titanium jet engine from any of the sites are more indications of missiles over jets. Titanium will not melt in the much lower heat generated by these jet fuel fires, according to a

retired Boeing senior manager with a former Top Secret clearance interviewed for this section who is/was familiar with jet aircraft engines from the 9/11 period.

FBI whistleblowers like former Special Agent Coleen Rowley say they were tracking some of the alleged 9/11 terrorists, but were muzzled, as if there was an intent to frame them for the atrocities.

Tellingly, a 132-page USA Patriot Act was drafted and ready to approve just six weeks later. The speed was explained as a rush to avoid further attacks. However, perhaps it was all planned by the Deep State, and the death of innocents was acceptable "collateral damage" by the shadow government." [558]

From THE TOP 40 Reasons to Doubt the Official Story. [911Truth.Org](http://911Truth.Org):

"(32) Attacking the Constitution:

a. The USA PATRIOT Act was written before 9/11, Homeland Security and the "Shadow Government" were developed long before 9/11, and plans for rounding up dissidents as a means for suppressing civil disturbance have been in the works for decades.

b. 9/11 was used as the pretext to create a new, extra-constitutional executive authority to declare anyone an "enemy combatant" (including American citizens), to detain persons indefinitely without habeas corpus, and to "render" such persons to secret prisons where torture is practiced."

A review of this timeline supports the view that 9/11 was an inside job designed to consolidate control of the global digital infrastructure into the hands of a Deep State shadow government organized by rogue elements of the C.I.A. and its globalist military-industrial technocrats identified herein.

# Project "Stellar Wind" —President Bush authorized warrantless bulk surveillance of American citizens

On Oct. 04, 2001, George W. Bush signed a President's Surveillance Program (PSP) authorizing the bulk data collection of American citizens called "Stellar Wind." This document was drafted solely by attorney John C. Yoo who was clearly being directed by his handlers James P. Chandler, III and Eric H. Holder, Jr., along with Vice President Dick Cheney.

Chandler was evidently coordinating these legalities in conjunction with his secret "public-private" technology companies [Deep State shadow government cartel] involved with the [National Infrastructure Assurance Council](#) (NIAC) renamed the [National Infrastructure Advisory Council](#) still in operation in 2017 (due for renewal on Sep. 30, 2017).

"OLC (Office of Legal Counsel, Department of Justice) Assistant Attorney General John Yoo was responsible for drafting the first series of legal memoranda supporting the [Stellar Wind] program . . . Yoo was the only OLC official "read into" the Stellar Wind program from the program's inception until he left the Department in May 2003." (PDF, p. 37).[\[635\]](#)

"John Yoo . . . had sole responsibility within that office and with the Department of Justice for developing the legal analysis relating to the Stellar Wind program until May 2003" in contradiction to his boss Acting Assistant Attorney General for the Office of Legal Counsel Jay Bybee's 'two Deputy rule' so that OLC opinions are reviewed by two OLC Deputy Assistant Attorneys General before going to the OLC Assistant Attorney General for approval." (PDF, p. 114).[\[635\]](#)

According to the Inspector General's report on Jul. 10, 2009, "Before the President authorized the PSP on 4 October 2001, Yoo had prepared a memorandum evaluating the legality of a hypothetical electronic surveillance program within the United States to monitor communications of potential

terrorists. His memorandum, dated 17 September 2001, was addressed to Deputy White House Counsel Timothy E. Flannigan and entitled Constitutional Standards on Random Electronic Surveillance for Counter-Terrorism Purposes." (PDF p. 23).[633]

However, this account is contradicted by Michael V. Hayden, C.I.A. Director, who told the Inspector General that "[David S.] Addington [former Counsel to Vice President Richard B. Cheney] drafted the first Presidential Authorization of the PSP. Hayden characterized himself as the 'subject matter expert,' and he said that no other NSA personnel, including the General Counsel, participated in drafting the authorization. Hayden also said that DoJ personnel had not been involved in his discussions with Addington concerning the Presidential authorization of the PSP." (PDF, p. 17).[633]

Nonetheless, "From the inception of the Stellar Wind program in October 2001, vast amounts of information about telephone and e-mail communications were collected and stored in databases at the NSA . . . We found that in the early years of the Stellar Wind program, the Department of Justice lacked the necessary legal resources to carry out an adequate review of the legality of the program . . . Only a single Department attorney [John C. Yoo] analyzed the legal basis for the program during his first year and a half of operation . . . the Department determined [in mid-2003] that this attorney's initial legal analysis was legally and factually flawed." (PDF, p. 420).[635]

**Inspector General's assessment of project Stellar Wind:**  
**Yoo: "the government's national security interest outweighed the individual's privacy interest"**

"Only a single Department attorney [John C. Yoo] analyzed the legal basis for the program during the first year and a half of operation . . . the Department determined [in mid-2003] that this attorney's initial legal analysis was **legally and factually flawed**." (OIG, Jul. 10, 2009).

 international borders and that interception of electronic communications by the United States fell within the "border crossing exception." Yoo further opined that electronic surveillance in "direct support of military operations" did not trigger constitutional protection against illegal searches and seizures, in part because the Fourth Amendment is primarily aimed at curbing law enforcement abuses. Finally, Yoo wrote that the electronic surveillance described in the Presidential Authorizations was "reasonable" under the Fourth Amendment and therefore did not require a warrant, i.e., in this situation the government's national security interest outweighed the individual's privacy interest.

On Jun. 05, 2002 , Chandler arranged Lawrence Livermore National Laboratory ("LLNL") executive Jeffrey Wadsworth[047] to sign a CRADA research agreement with Leader, writing in a term that made Chandler a party to the agreement and having him take custody of Leader source code, ostensibly for safekeeping and contract compliance. Fenwick and Major General James E. Freeze (U.S. Army, ret.) (former NSA assistant deputy director)[048] were also copied on this agreement. Chandler was particularly enthusiastic about the Department of Defense cryptography rights that this agreement gave Leader, according to Leader officials.[049]

122. On Jul. 01, 2002 , Jeffrey Wadsworth joined Battelle Memorial Research Institute ("Battelle") in Columbus, Ohio as senior executive then president.[301] Battelle was the beneficiary of substantial Obama energy stimulus funds from Steven Chu, U.S. Energy Secretary, who is heavily invested in Facebook financial interests like all the judges in Leader v. Facebook.[050] Wadsworth figures prominently in 2014 in the smear of Ohio State Marching Band director, Jon Waters. The unwarranted "sexualized culture" accusations were used to distract media attention away from Ohio State in the aftermath of Waters' wildly successful Apple iPad national publicity. Apple is famously not participating in the Deep State's digital takeover. The Ohio State data center is being used by the Deep State for their international backdoor siphoning of university research data via M.O.O.C. (Massive Open Online Course), the higher education companion of Common Core, also a Deep State initiative.[302]

123. On Aug. 05, 2002 , LLNL validated Leader's invention as a "Rapidly Deployable Security System," the validation provided Chandler via Leader with access to DoD encryption. See CRYPTO.com above.[051]

124. On Aug. 09, 2002, Chandler made a demand for immediate payment of \$30,000 and threatened to stop legal representation (after already receiving over \$500,000 in legal fees, and after having taken custody of Leader's source code on Jun. 05, 2002). [183]

James P.  
Chandler, III

In this letter to Michael McKibben, CEO, Leader Technologies, Chandler cited all players in The Eclipse Foundation (IBM, Xerox, Hoffman La Roche, Bill Fenwick, Fenwick & West LLP).

Chandler's reference to "Xerox" was Freudian, according to Leader representatives, since Leader had never spoken to Xerox. Curiously, Xerox prior art figured prominently in Facebook's trial arguments and re-exam claims which only prevailed after three previous failures and personal intervention by outgoing Patent Office director David J. Kappos, a 20+ year IBMer, then IBM chief inside intellectual property counsel, and colleague to Chandler, IBM's chief outside intellectual property counsel. Also curiously, he described Bill Fenwick's (Fenwick & West LLP) legal engagement to "map your progress." Fenwick is Facebook's chief outside counsel.

IBM falsely claimed that they had all the necessary copyrights to make Leader Technologies' invention available as "open source" to the Eclipse members. IBM's chief outside counsel, Professor James P. Chandler, certainly knew this claim was false since he had filed copyrights on these ideas on Aug. 07, 2001 and filed provisional patent applications on Leader's inventions on Dec. 10, 2002, just three months later.

IBM's inside counsel in 2002, David J. Kappos, tried to make doubly sure that Leader's patent claims were killed by issuing an unprecedented third reexamination of Leader's patent before he resigned as Patent Office director in 2012. To pull that off, he assigned IBM cronies inside the Patent Office to the reexamination panel. This stunning corruption cannot be more evident in hindsight.

James P.

James E. Freeze

The Intercept first published these SIDtoday back issues. They describe how SIDtoday used descriptors like: portal, one sign-on, profile, news, portlets), results all together, cockpit tools, roles, workspace, mission-driven cockpit, cleanly laid out, email and calendar. [397]

"The Analyst  
Cockpit"

Leader Technologies had already filed for trademarks including Leader Portal, Digital Leaderboard, Digital Projectboard, Leader One-Touch, Leader Tools, Leader Workspace, Leadership Scorecard, Leader Mail, Leader Calendar.

Notice: Leader Technologies filed for trademark protection on these marks. The editors of this page have not researched their current status. These marks should not be used without consulting appropriate authorities. [399]

NSA SIDtoday was merely parroting Leader Technologies' innovations which were ostensibly being protected by their intellectual property attorney, James P. Chandler, III, who was evidently feeding those ideas straight to his other client, the NSA.

"What is  
Journeyman?"

At this point in time the only people who had seen this ground-breaking collaborative web invention were Leader Technologies developers and directors, including Mar. General James E. Freeze (U.S. Army, ret.) and patent counsel James P. Chandler, III. Freeze was former assistant deputy director of the NSA. Chandler was intellectual property counsel to the agency.

Anne-Marie Slaughter, New World Order advocate

"[In Anne-Marie Slaughter's fantasy world] the state is not disappearing, it's disaggregating, meaning it is simply operating through all its different branches, through regulatory agencies, through judges, through legislators, and they are all networking with one another." —Anne-Marie Slaughter Dept. of State speech, Apr. 12, 2004

The Pay-to-Play relationships among Larry Summers and the Clintons with the NVCA are legion. The better question is: Who in technology and finance has not paid to play?

Senator Hillary Clinton publicly criticized Nazarbayev for his poor human rights record, but the Clinton ground game appears to have been a different story.[328]

Goldman Sachs, who has large uranium trading interests, and from who Bill Clinton had just months earlier received \$650,000 in speaking fees (Dec. 03, 2004, Apr. 20, 2005, Jun. 06, 2005, Jun. 13, 2005) has subsequently done other energy deals with Giustra, like U.S. Oil Sands Inc.

## Priming the Deep State Pump

According to The New York Times, "Just months after the Kazakh pact was finalized, Mr. Clinton's charitable foundation received its own windfall: a \$31.3 million donations from Mr. Giustra that had remained secret until he acknowledged it last month [Dec. 2007]. The gift, combined with

Mr. Giustra's more recent and public pledge to give the William J. Clinton Foundation an additional \$100 million, secured Mr. Giustra a place in Mr. Clinton's inner circle, an exclusive club of wealthy entrepreneurs in which friendship with the former president has its privileges." On Sep. 09, 2006, a year later, Giustra raised another \$21 million for the Clinton Foundation at a Bill Clinton's birthday bash organized by Giustra in Toronto. This puts Giustra's total contribution to the Clinton Foundation at at least \$152 million.

A few months later (Dec. 2005), Nazarbayev was returned to power in an election that watchdogs said was marred by an "atmosphere of intimidation" and "ballot-box stuffing." After Nazarbayev's victory with 91 percent of the vote, Bill Clinton sent congratulations and praise that contradicted U.S. policy and even Hillary Clinton's skeptical public comments. Privately, the Clintons' interests were polar opposite.

On Feb. 12, 2007, Giustra sold UrAsia to Uranium One for \$3.1 billion creating a 700% return on his two-year old UrAsia holding. A year later, Uranium One's stock

was in free fall and its chief executive, Moukhtar Dzhakishev, was arrested by Nazarbayev on charges of illegally selling the country's uranium deposits to foreign companies, including Giustra's UrAsia. Later, Russia took over Uranium One with Hillary Clinton's at least tacit approval without disclosing the many donation by Uranium One stakeholders to The Clinton Foundation. See Jun. 29, 2010 for a table of these donations.[328] [329]

▶▶▶ Fig. 25—On Oct. 26, 2005, James W. Breyer and Mark E. Zuckerberg committed a crime. They fraudulently solicited Stanford University students to help them write applications to run on Facebook. Facebook's software engine is the invention of Columbus, Ohio innovators Leader Technologies and their founder, Michael T. McKibben. Breyer and Zuckerberg were engaged in fraudulent inducement to misappropriate property that did not belong to them. The fact that they crossed state lines to commit this crime amounts to racketeering under the RICO Act, among other offenses. In our opinion. Notice how fidgety Breyer gets at 40min. 11secs. when this evident set-up question about building apps is asked by a well-prepared audience plant. Their body language tells all. At this point in Oct. 2005 these actors were still perfecting their fabrications about Facebook's origin. This new film delves deeply into the history of Bohemian Grove where powerful men make decisions that affect the world but are completely hidden from public scrutiny. The Order of Death details how the Grove has been the backdrop for some of the most earth shattering events in human history including the development of the Starwars program and the Manhattan Project.

The Order of Death also features never before seen footage captured by a daring former Grove employee including an astounding look inside the owl worshipped at the Cremation of Care ritual.[610]

In 2007-2008, the C.I.A. internally published Triton 1.3 User Guide (undated), "an automated implant for Mac OS X."

More telling, the guide makes reference to "DROPBOX" used for "Exfiltration" data from the target computer.

TECHOPEDIA says "Data exfiltration is the **unauthorized copying, transfer or retrieval of data from a computer or server**. Data exfiltration is a **malicious activity** performed through various different techniques, **typically by cybercriminals** over the Internet or other network. Data exfiltration is also known as data extrusion, data exportation or **data theft**." [632]

DROPBOX is funded by Deep State globalists Sequoia Capital, Blackrock, JPMorgan Investment, Accel Partners, Goldman Sachs, Greylock, Matt R. Cohler (Instagram, Facebook, Gmail, Larry H. On May 10, 2007, Chandler lectured at OPSEC (Operations Security a.k.a. CNIC Naval Air Station Jacksonville, Florida) on "National Security and Intellectual Property Right." OPSEC's mission was created by two executive orders that Chandler very likely authored for the Clinton Administration: Executive Order No. 12958, "Classified National Security Information" of Apr. 20, 1995 [271] and Executive Order No. 12968, "Access to Classified Information" of Aug. 04, 1995. Executive Order No. 12958 was modified by Barack Obama in Executive Order No. 13526, 3(b)(9) (Classified National Security Information), [228] making declassification dependent on foreign treaties like the Trans-Pacific Partnership (TPP).

- 1. Clinton Health Access Initiative, Pres. / COO
- 2. Clinton HIV/AIDS Initiative, CEO
- 3. Clinton Climate Initiative, Senior Advisor

Verma is associated with the dozens of energy sector companies. His directorships parallels the distribution of hundreds of billions of dollars in the Obama energy "stimulus." In some companies Verma was only a director for a month to eighteen months, rarely longer—long enough to cash the Obama energy stimulus siphoned from one of the recipients? Verma exited 20 directorships in energy companies all on Dec. 07, 2011

Concurrently with Verma's 35 energy shell holdings, Mitt Romney listed another energy stimulus beneficiary, AGUA CALIENTE , as a leasor of his land in Nevada. On Aug. 05, 2011, Agua Caliente was acquired by NRG Energy from First Solar where Goldman Sachs had a 5.9% holding. In Aug. 2011, Aqua Caliente received a \$967 million Obama energy stimulus.[366] [364]

It would appear that the CEO of the William J. Clinton Foundation in India, Deepak Verma, had prescient knowledge of a coming energy stimulus windfall that he would manage for the Clintons—on the other side of the planet in India, far from the reach of U.S. regulators.

### Starting in early 2008

Goldman Sachs and Morgan Stanley executives Verdi Israelian, John Lindfors and Alexander Tamas joined Russian Yuri Milner, DST, Digital Sky Systems to establish offices in London and Moscow—starting well before the late 2008 Summers-managed American bank "bailout." [323] This activity telegraphs Goldman Sachs' foreknowledge of a coming windfall from tens of billions of American taxpayer dollars in what appears to have been a contrived banking "crisis" designed to feed billions of dollars into Deep State coffers. Some of these funds were sent to London and Moscow, then routed through Dubai banks and used to purchase Facebook pre-IPO "dark pools" stock sold by JPMorgan, Goldman Sachs and Morgan Stanley. [322]

On Jan. 9-11, 2008, Larry Summers was paid \$180,000 for three days of speaking fees by Skagen Funds (Scandinavia) with offices in Iceland where, according to the narrative, the 2008 bank mortgage defaults began. Iceland has 323,000 people—the size of South Aurora, Colorado, ranked the 72nd largest city in the U.S. The notion that South Aurora's bank defaults could cause a global banking meltdown is laughable. ## Direct Threats on Michael Connell's Life

Prior to his deposition, a tipster warned that "Connell is in danger." The tipster first said that Rove wanted Connell to "take the fall" regarding election rigging and that if Connell did not, he would cause Connell's wife (his business partner) to be subject to criminal accusations. Closer to the deposition, the tipster warned that Rove had upped the anti to a direct threat on Connell's life if he did not protect Rove and his vote-rigging network. The tipster was Jeff Aberbeck, CEO of SMARTech, Chattanooga, TN, the Republican Party go-to website hosting site that Connell had supported for years.[422]

On Dec. 19, 2008, six weeks later (see below), Connell, an experienced pilot, was killed in a plane crash on approach two miles from his local Akron-Canton Airport. ## Hillary Clinton's version of the 18.5 sec gap in the Nixon Tapes that brought down his presidency?

Jan. 21, 2009 to Mar. 18, 2009, during the formative days of the organization of the State Department (and coordination of secret communications systems with fellow globalists at The Clinton Foundation, The IBM Eclipse Foundation, James P. Chandler, III, the NSA and George Soros), Hillary Clinton and her Williams & Connolly LLP attorneys failed to provide any emails from this period when the conspiracy to evade national secrets laws via private servers in her Chappaqua, NY residence basement was being investigated by the FBI.[489]

FBI. (Released Sep. 03, 2016). Hillary R. Clinton Interview Part 1 of 3. Federal Bureau of Investigation, p. 27.

However, Hillary testified to the House Oversight Committee that she did not begin using her private email server until Mar. 18, 2009. This Mar. 18, 2009 date was evidently selected as an excuse for withholding damning emails before that. Any reasonable person can see that after being so eager to get her private email system set up prior to her appointment as Secretary of State on Jan. 21, 2009, it is not plausible that she would then wait until Mar. 18, 2009 to start using it—four days before she signed her Nondisclosure Agreement. She will argue that she was not yet obligated to use State Dept. systems yet. While that might satisfy unscrupulous attorneys looking to use their insider knowledge to sneak things by an unsuspecting public, it does not satisfy American citizens who trusted her with the moral spirit of these regulations and practices as well as their letter.

**Inescapable Conclusion:** Most, if not all, of the social networking functions of large online providers were created by the U.S. Government via IBM-NSA-Eclipse Foundation to spy on both children and adults. In return for information on citizens, the government allowed commercial exploitation of the citizens and their personal data by these companies.

Included in Hillary's priorities was a request for "Information on hacking." This information could be used to protect Facebook and CEO Mark Zuckerberg, who famously describes himself as a hacker. On Aug. 01, 2009, Dr. Christi Scott Bartman, Program Director Public Administration and Public Policy, American Public University, wrote her dissertation on LAWFARE. She said this asymmetric warfare is being employed with predictability by "other states and [globalist] international bodies such as the UN." Globalist belligerent George Soros has aligned his Open Society Foundations with the UN.

BARTMAN: "The Soviet Union and the Russian Federation practiced manipulation or exploitation of the international legal system to supplement military and political objectives, or lawfare, via the definition of aggression and aggressive war, from 1933 through 1999. Though also practiced by others, the Soviet Union and the Russian Federation stand out through their use of lawfare earlier and with a greater degree of consistent strategic implementation. They continued to operate on a dual front, both legally in international bodies and through international treaties, and illegally or quasi-legally, through manipulation or exploitation of the system to supplement their military agenda. The consistent definition for aggression and aggressive war lent a degree of predictability to future actions of other states and international bodies such as the UN. The Soviet Union and Russian Federation used the structure they were instrumental in setting up consistently to serve their political and military purposes." [674]

(According to the ACLU: "Amazingly, the sentencing judge said, 'I don't know what was divulged other than some documents, and how it compromised things, I have no idea'.")[799]

333. **On Dec. 21, 2009** , Hillary Clinton's staff circulated a 12-page draft of her upcoming "Internet Freedom" speech in which she promoted Facebook as an "eDiplomacy" tool. Chollet is a former adjunct professor at George Washington University (where James P. Chandler is emeritus professor intellectual property). He was on Obama's transition team and worked for Hillary from as principal deputy director of policy planning (2009-2011). Chollet became Obama's senior director on the national Security Council.

Barack Obama issued Executive Order 13526, Classified National Security Information. Sec. 4.3(b)(6) established an inner circle of six agency heads who report to the President on all security

classifications. This effectively created a secret White House Intelligence Agency with near dictatorial powers. This order was drafted by Professor James P. Chandler, former Harvard professor, advisor to Obama, Clinton, Holder, Kappos . . . and Leader Technologies, Inc., from whom he confiscated their social networking invention and fed it to this secret intelligence network via IBM and The Eclipse Foundation which was formed on Nov. 29, 2001. ## Hillary's "Internet Freedom" speech signaling George Soros / Facebook domination of State Department agenda

On Jan. 21, 2010 ,

Hillary Clinton delivered her "Internet Freedom" speech in which she promotes social networking numerous times (an obvious reference to Facebook, without naming Facebook due to the pending *Leader v. Facebook* patent infringement lawsuit), social networking (Facebook by inference), Google and George Soros Open Society Foundations grantees and funders including, Global Network Initiatives , Microsoft, Freedom House , The Aspen Institute .[469] [235] [471]

Sheryl K. Sandberg, Facebook COO , admits in an email to Hillary and aide Cheryl D. Mills participating in the drafting of Hillary's Internet Freedom speech. This email was stonewalled by the State Department until corruption watchdog Judicial Watch pressed Judge Sullivan to order the release, which he did.[413]

Such naked promotion of social networking cast a pall over the *Leader v. Facebook* trial. It sent an unmistakable message to U.S. agencies, attorneys who wanted Obama appointments to judgeships (like *Leader v. Facebook* magistrate Leonard P. Stark), and the courts not to touch Hillary's Internet darlings like Facebook—tampering with witnesses on steroids.

Interference in judicial proceedings by federal officials and agencies is a violation of [18 U.S. Code 1505](#) that gave *Leader Technologies* the right to an impartial tribunal free of government tampering with potential witnesses.[428]

Thereafter, Leader principals were informed that Facebook continued to give lip service to Discovery cooperation while continuing to obfuscate. 347. Leader principals were informed that Facebook claimed that earlier versions of their computer source code did not exist prior to 2009 when Leader's expert witness, Dr. Giovanni Vigna, University of California, Santa Barbara, forensically examined Facebook's computer source code. This explanation did not ring true since computer programming source code is the life-blood of any credible software development effort, and is backed up routinely between versions (often called "builds") to avoid loss of valuable work. This practice is especially important when many programmers must work together to write, debug and test each build of a program before releasing it for use. Facebook claimed illogically that they had kept no build backups for the first five years of their existence.

MS. KEEFE [Facebook counsel]: Same objection and this time I instruct you not to answer

BY MR. ANDRE:

Q. Are you taking your counsel's advice?

BY MR. ZUCKERBERG:

Leader principals were informed that the denial of access to the historical Facebook information, and Zuckerberg's refusal to answer any questions about his Harvard hacking activities precluded Leader from obtaining any facts from Facebook about its 2003-2004 formative period, other than what was publicly available. Leader was thus forced to go to trial without these facts which were important to Leader's willfulness claim, and which may have generated new claims based on the truths uncovered.

## Obstruction of Justice in Leader v. Facebook : NSA, Facebook, FBI, CES, FAA and the FISA Court collude during the lawsuit

ca. Nov. 15, 2010, the NSA was proved by whistleblower Edward Snowden to be in collusion with the Deep State along with the FBI, FISA, and FAA. This cooperation with government agencies was obstruction of justice in Leader v. Facebook litigation that was pending on appeal.[317]

(TS//SI//NF) SSO HIGHLIGHT - BLARNEY Exploits the Social Network via Expanded Facebook Collection

**Collusion among Facebook, FISA, FAA, FBI, CES, NSA**

(TS//SI//NF) On 11 March 2011, BLARNEY began delivery of substantially improved and more complete Facebook content. This is a major leap forward in NSA's ability to exploit Facebook using FISA and FAA authorities. This effort was initiated in partnership with the FBI six months ago to address an unreliable and incomplete Facebook collection system. NSA is now able to access a broad range of Facebook data via surveillance and search activities. OPis are excited about receiving many content fields, such as chat, on a sustained basis that had previously only been occasionally available. Some content will be completely new including subscriber videos. Taken together, the new Facebook collection will provide a robust SIGINT opportunity against our targets - from geolocation based on their IP addresses and user agent, to collection of all of their private messages and profile information. Multiple elements across NSA partnered to ensure the successful delivery of this data. An NSA representative at FBI coordinated the rapid development of the collection system; SSO's PRINTAURA team wrote new software and made configuration changes; CES modified their protocol exploitation systems and the Technology Directorate fast-tracked upgrades to their data presentation tools so that OPis could view the data properly.

[414] According to Sheryl K Sandberg's Feb. 16, 2011 email to Cheryl D. Mills

and Hillary (stonewalled by the State Department in Judicial Watch v. State FOIA and only eventually released by court order).[413]

Hillary R.  
ClintonSheryl K.  
Sandberg,  
Facebook COOMark E.  
Zuckerberg,  
Facebook CEO

Cheryl D. Mills

Sandberg: "Facebook [is] are grateful for the opportunity to offer our ideas and suggestions as Alec Ross and other were field testing elements of the framework—only the most recent example of the effective and productive collaboration we find in working with your senior colleagues. We look forward to continuing to work together and supporting the Secretary in this important work. On behalf of Mark Zuckerberg and myself, please give her our warmest congratulations."

Dmitry  
Shevelenko,  
Facebook  
"election  
winning"  
template  
manager

The "field testing elements" Sandberg mentions is undoubtedly the Sep. 30, 2010 contract (and numerous subsequent contracts) Hillary Clinton and the U.S. State Department entered into for Facebook to build a "template for winning elections" directed by Facebook employee Dmitry Shevelenko in clear prohibition of a federal agency from interfering in U.S. elections. See Sep. 30, 2010 entry,[390] not to mention the obstruction of justice by the State Department in Leader v. Facebook since these Facebook employees are all potential witnesses in the case.

Hillary Clinton appointed former Obama political advisor Alec Ross as Director of Innovation on Apr. 06, 2009. According to Sandberg, Facebook assisted Ross in preparing the Internet Freedom speech and "field testing" the election rigging software that Facebook was preparing for the State Department. See Apr. 06, 2009 entry.

Alec Ross

The Puffery of  
Female Criminality

Sandberg also made reference to a sycophantic CNN Money puff piece about her.[416] Tellingly, she disclosed a cozy relationship with CNN in her statement about the article that "we allowed" with regard to the article's content.

Sandberg invited Secretary Clinton to a "completely off-the-record" dinner series "I run in my home" named "Women of Silicon Valley." However, she noted the one exception to the confidentiality of this dinner was the CNN puffery article that clearly reinforces hers and Hillary's mutual feminist agenda. Also notable is the CNN URL Sandberg gave to Clinton. That was a link to a private version of the

article at CNN carrying a date three weeks before it was published. Further revealing CNN's readiness to allow Sandberg to edit her own press.

Also featured in the CNN puffery article is Theresia Gouw Ranzetta, a longtime employee of Accel Partners LLP, the largest venture capital holder of Facebook.

Facebook's largest outside shareholder is

Accel Partners' managing director

James W. Breyer. Gouw is the leader Accel manager in numerous Accel Partners limited partnerships that hold Facebook stock.

Theresia Gouw Ranzetta, Accel Partners LLP goat, Facebook

James W. Breyer, Accel Partners LLP managing partner, Facebook

James Swartz, Accel Partners LLP, Facebook

Ping Li, Accel Partners LLP, Facebook

Tellingly, in the CNN puffery, Sandberg sang the praises of her mentor, former serial employer and Harvard professor, Lawrence "Larry" H. Summers—the evident godfather of this entire NSA Deep Spy State cartel.

Larry H. Summers

Marc Andreessen, Facebook, Summers' Valley Boy, Ning

Gina Bianchini, Ning

Sukhinder Singh Cassidy, Google

Note in the CNN puffery that Gina Bianchini, CEO of Ning, is highlighted. Bianchinin's partners is Facebook director Marc Andreessen, thus completing this loop of criminal insiders, all feeding each other's criminality—easily the largest financial crime in the history of the world.

Also highlighted is Google Asian and Latin American representative, Sukhinder Singh Cassidy. Google's central role in the NSA Cartel and theft of Leader Technologies' social networking invention via the IBM Eclipse Foundation is

now legend.

CNN puffery gives the illusion of female diversity in Silicon Valley; Sandberg, Bianchini, Cassidy and Ranzetta play along like good little (valley) girls.

Note that the CNN puffery gives the illusion of female diversity in Silicon Valley, when in fact, these women are mere props for the male-dominated NSA Deep State social media spy state corruption. Like the illusion of diversity of choice in social media options, the Deep State also portrays the politically-correct illusion of gender diversity.

One of Park's companies, Castlight Health, actually did a \$2 billion public offering (Feb. 4, 2014) while Park worked at the Obama White House.[332] Castlight's underwriters were Facebook's underwriters, Goldman Sachs and Morgan Stanley.[324] Park's company when he came to the Obama White House was Athenahealth. He claimed that he had sold his stock, but many Obama cronies run the company, making Park's claim of impartiality dubious. Athenahealth is a big beneficiary of Obamacare, for which Park was the architect.[330][331]

Park also failed to disclose substantial Chinese involvement in Obamacare via underwriters and stakeholders in Baidu ADR. 431. On Mar . 22, 2012 , IBM sold 750 "junk" patents to Facebook.[139]

IBM holds over 67,000 patents, the most in the world. Pundits know well that IBM does not sell their valuable patents. IBM creates and holds good patents. However, in the late 1990's, David J. Kappos and James

P. Chandler began a "patent trolling" program to attack the industry with IBM patents of little or no value. The objective was to use IBM market power to cajole license settlements from smaller companies who did not want the expense of fighting IBM. The patents sold to Facebook are of little or no other value than for industry harassment purposes by Facebook's rapacious gaggle of lawyers, including Chandler Law Firm Chartered, Fenwick & West, Cooley Godward, Gibson Dunn, Latham Watkins, Weil Gotshal, Perkins Coie, Orrick Herrington, Skadden Arps, Blank Rome, White & Case and Mayer Brown. Indeed, IBM, Kappos and Chandler are the original "patent trolls."

IBM, Kappos and Chandler were evidently gifting 750 IBM junk patents to their Eclipse offspring, Facebook, so they too could enjoy the benefits of harassing other technology companies going forward. These companies use their market power and public relations firms to flip the patent troll story into disinformation against real inventors. They accuse real inventors of being the trolls who sue the big company for quick money.

The insiders included James W. Breyer (Facebook chairman), Ping Li and James Swartz (Accel Partners LLP), Yuri

Milner (DST, Mail.ru, Digital Sky Technologies, and third largest shareholder), Mark Zuckerberg, Goldman Sachs, Peter A. Thiel , Meritech Management and Microsoft.

Yuri Milner, Mail.ru,

Russian Yuri Milner was a \$3.79 billion winner. Milner has been a disciple of Larry Summers since his college days at

the World Bank. Milner authored an essay proposing a voucher system favored by Summers to privatize the

Russian economy. This reckless proposal was forced upon Russia and gave rise to the mob rule today known as Russian oligarchs. Larry Summers very evidently took advantage of an "insane and unnecessary haste" to destabilize the Russian economy, line his pockets, and pump the pre-IPO Facebook valuation to \$100 billion..[128] [267]

The hard drives had been in the possession of Gibson Dunn LLP (Thomas G. Hungar, Chief Justice John G. Roberts, Jr.'s protégé) during the entire Leader v. Facebook proceeding. Leader first read the depositions of Facebook expert witnesses Michael F. McGowan and Bryan J. Rose, examiners for, LLC, conducted by Dean Boland.

According to this sworn Facebook expert testimony, the 28 hard drives were being stored at the offices of Mark Zuckerberg's personal attorney, McManis Faulkner LLP, and the examination was under the direction of Gibson Dunn LLP attorneys, particularly Mr. Matthew Benjamin.[149]

After reading the Friedberg testimony, Rovner's suspicions were proven correct—that Facebook stonewalled during Discovery in order to hide the existence of the Zuckerberg Information.

Leader realized that the 2003-2004 Zuckerberg Information to which Facebook had previously denied Leader access during Discovery had been under the control and supervision of Facebook's attorney, Gibson Dunn LLP, during the entire pendency of the Leader v. Facebook case.

Thomas G. Hungar of Gibson Dunn LLP was the appeals attorney for Facebook in Leader v. Facebook,[150] yet he was silent about the existence of the 28 Facebook/Zuckerberg computer hard drives and Harvard emails.

Leader has been systematically denied the opportunity to do a one-to-one comparison of Leader's source code, business, technical and prior litigation information with the Zuckerberg

Information, despite the Federal Circuit being compelled by motion to act to preserve the hard drives and reveal the conflicts of interest of the judges.

[On Jan. 29, 2013](#) , an anonymous whistleblower revealed a secret C.I.A. The head of the project, Steve Corman, has worked extensively in the area of strategic communication as it applies to terrorism and "extremism"—or what could be called that targeted Christianity and Islam. The secret government program sought to induce and "the war of ideas." The project was intended to disrupt religious "narratives" with desired propaganda and literally change people's minds. .

This project entered its implementation Phase III in the run up to the 2016 Presidential election. The Arizona State University project leaders are experts in social media and received \$6.1 million to develop actionable strategies to disrupt "master narratives" (like one's Christian and Islamic beliefs) in the name of controlling extremism. The program focused on finding trigger words and phrases that provoked desired emotional responses by using words in lieu of magnetic resonance pulses to the brain—irrespective of the truth or proper context of the information (aka "virtue signalling"). For example, "Crusades" emotionally triggers some Moslems, as does "Jihad" with some Christians. When they became convinced that fundamental constitutional rights were being violated, they complained first to their superiors, then to federal investigators, congressional oversight committees and, finally, to the news media.

They said they could not get anyone in Congress, courts, Department of Justice or inspector general's office to pay any attention. They called the misconduct "systemic," "Leviathan surveillance," "criminal," "broad waste" and "abuse." They called Congressional oversight "a joke," "rubber stamp" and a "myth." Counting his clerk job during University of Chicago Law School in 1982, Comey has held 15 jobs before becoming FBI director. He changed jobs every two years. Most employers would consider such job hopping a sign of instability, but in government legal circles, that makes you qualified to be FBI director. It appears that he was being groomed. See Bibliography below for a complete timeline of Comey's jobs.

## Castlight Health Initial Public Offering —a Pay-to-Play Feeding Frenzy

On Feb. 4, 2014, Castlight Health, Inc. went public while Castlight's founder, Todd Y. Park was Obama's White House chief technology officer. Castlight is a supplier to Obamacare and

Remarkably, the cast of actors in this Castlight Health S-1 Registration offering reads like a Who's Who of Leader Technologies infringers and fraudsters: Fenwick & West LLP (Gordon K. Davidson, Leader Technologies' former counsel), Fidelity

523. **"The Deep State is hiding in plain sight... groupthink drives the Deep State."**

On Feb. 21, 2014 , Bill Moyers interviewed Mike Lofgren, a former GOP congressional staff member with the powerful House and Senate Budget Committees. Lofgren joined Moyers to talk about what he calls the Deep State, a hybrid of corporate America and the national security state, which is "out of control" and "unconstrained." In it, Lofgren says, elected and unelected figures collude to protect and serve powerful vested interests. "It is ... the red thread that runs through the history of the last three decades. It is how we had deregulation, financialization of the economy, the Wall Street bust, the erosion of our civil liberties and perpetual war," Lofgren said.

Lofgren says the Deep State's heart lies in Washington, DC, but its tentacles reach out to Wall Street, which Lofgren describes as "the ultimate backstop to the whole operation," Silicon Valley and over 400,000 contractors, private citizens who have top-secret security clearances. Like any other bureaucracy, it's groupthink that drives the Deep State.[794]

Fig. 39—On Mar. 02, 2015, President Obama and senior adviser, Valerie Jarrett, met with chief beneficiaries of the stolen Eclipse Foundation code: IBM, Xerox, Dell, Micron Technology, Qualcomm and EMC. Given the timing of this meeting—a week after the radical "Net Neutrality" changes to Internet regulation by the FCC—the real agenda of this group was most likely to discuss progress on their common agenda—the IBM et al "The Internet of Things" takeover of global digital infrastructure, which the FCC changes to Internet regulation helped facilitate.

Photo: IBM.

Ostensibly, this group discussed Obama's priorities for immigration, cyber security and free trade. However, as now expected from this President, the actual agenda likely revolved around the overarching agenda of the Facebook Deep State cartel—The Eclipse Foundation and their need to accelerate implementation of "The Internet of Things" before Obama leaves office.

Notably, on Dec. 10, 2013, The Linux Foundation established a mirror image of The Eclipse Foundation called the "AllSeen Alliance." AllSeen is comprised of most of the same members as Eclipse with an uncannily similar mission. As is now a common pattern among Obama and Facebook Cartel collaborators, this is another shell game to fool the great unwashed American who, they believe, is "too stupid" to understand these executive deceptions.

IBM, Microsoft and Xerox. On Oct. 17, 2012, Patent Office judge cronies illegally invalidated Leader Technologies' patent for social networking in an **unprecedented third reexamination** ordered by former IBMer Patent Office director, David J. Kappos. just **one month before** Facebook went public, and **one month after** IBM sold Facebook 750 junk patents. Leader had proven the patent claims valid twice in open federal court and in two previous reexaminations. These actions prove corruption at the U.S. Patent Office. Fraudulent judgments are null and void, as if they never occurred. The three Patent Office judges had issued almost 100 patents to IBM, Microsoft and Xerox before being assigned to the panel. One judge, **Stephen C. Siu**, had worked both for Microsoft and IBM. None of the judges disqualified themselves.

The evident purpose of the Dell-EMC merger is to consolidate the public-private IBM-Eclipse Spy State control of the underlying technology that controls the Internet to enable spying on Americans long after Obama leaves office. Their clear intent is to establish themselves as a permanent ruling class. They have proven over Barack Obama's administration that they can use the NSA spy state data to manipulate and coerce American politics and that Congress appears to lack the will to stop them.[263]

On Jan. 09, 2016 , Juniper Networks, one of the most prominent corporate security systems in the world, announced it will remove the Dual\_EC\_DRBG encryption algorithm that intentionally weakens the security of their products and very likely enables a backdoor by the U.S. National Security Agency (NSA). [336] Juniper senior vice president and CIO, Bob Worrall, made the dubious claim that Juniper was previously unaware of this vulnerability. But in fact, Juniper has registered its use of the Dual\_EC\_DRBG algorithm 11 times starting Oct. 05, 2012. See "NSA helped British spies find security holes in Juniper firewalls.": [338]

See Juniper Networks. (Oct. 05, 2012, first reg.). Nos. 785, 752, 751, 524, 499, 338, 325, 324, 315, 265, 263 (Oct. 05, 2012). NIST DRBG Validation List. Accessed Oct. 23, 2015. National Institute of Standards. [333] [316]

Juniper's investors and officers since 1996 read like a Deep Spy State cartel Who's Who (i.e., Xerox

PARC, Sun, MCI, Qwest, Nortel, Siemens, Ericsson, 3Com, AT&T). For example, in Sep. 2015, Juniper took a \$35 million Series D financing from Vectra Networks. Vectra has close investing relationships with Accel Partners (James W. Breyer) and Intel (Andy Grove). Illustrative of the incestuous interconnections, Juniper is invested in Vectra, which is invested in Juniper, which is invested in Vectra, ad infinitum.

Juniper lists Palo Alto Networks as a competitor. However, one of Palo Alto's key investors is Greylock Partners started by Reid Hoffman (LinkedIn CEO, Facebook director, Accel Partners, James W. Breyer collaborator). This connects Hoffman to Greylock to Accel to Vectra, and therefore to Juniper. This makes Juniper an ally with Palo Alto, not a competitor. These Juniper representations to the investing public are lies.

James W. Breyer, Accel Partners, Juniper & Facebook investor

Reid Hoffman, LinkedIn; Juniper & Facebook investor

The recent exposure of Juniper's misconduct only further reinforces the central role they play in moving forward the NSA spy state agenda. [334] [335] [337]

The Times quoted Lloyd Blankfein, CEO of Goldman Sachs as saying, "We are pleased to have reached an agreement in principle to resolve these matters."

Lloyd Blankfein, Goldman Sachs

Not a single Goldman Sachs executive has been fired or prosecuted; they have received bonuses instead. **\$6 billion is chump change for Goldman Sachs**. Goldman alone received over \$13 billion in U.S. taxpayer "bailout" funds. JPMorgan (Jamie Dimon) received \$25 billion. However, HSBC whistleblower Hervé Falciani revealed that at least some of these funds were shuffled offshore to money launderers where they were leveraged (e.g., \$1 becomes \$10 to loan) and came back to the U.S. to prop up client stocks, like Facebook.[201]

Jamie Dimon, JPMorgan

Clearly, Goldman and CEO Lloyd Blankfein are central actors in this global public corruption.[318]

Bill Clinton

1993-2016, Pay to Play Global Organizers — Bill and Hillary Clinton have received \$1 million in speaking fees from Goldman Sachs alone.[232] Within a day of Bill Clinton meeting with Kazakhstan's strongman president, Nursultan A. Nazarbayev, on Sep. 03, 2005, Clinton convinced Mazarbayev to give coveted uranium mining rights to Clinton friend, Canadian Frank Giustra. Giustra was a uranium mining

novice. Giustra then donated \$152 million to the Clinton Foundation over the following months.[328] [329]

1993-2016, U.S. Patent Office Toy Box Director

Intellectual Property law professor James P. Chandler, III looms large over the seminal events in this timeline. He advised then President Clinton on national security and patent law between 1993 and 2001. In the process, he advised the NSA, C.I.A., IBM, Microsoft, Xerox and the technology world on encryption. After learning about Leader Technologies' social networking invention, he agreed to become their patent counsel in 2000, then he illegally shuffled Leader's ground breaking invention to IBM's Eclipse Foundation consortium who planned to exploit perhaps the most important invention since Thomas A. Edison's light bulb. He advised the Justice Department, FISA Court, Federal Circuit Court of Appeals. He advised the Patent Office. He was close to Eric H. Holder, Jr. and David J. Kappos, then got Barack Obama to put his friends in key positions to control the U.S. Patent Office's treasure trove of patent applications from which to steal the best ideas for this pay-to-play agenda. He was close to Fenwick & West LLP who he urged Leader Technologies to engaged as co-counsel. Fenwick is now Facebook's lead securities and patent attorney. The pattern of corruption is quite evident in hindsight.

As described in this timeline, Larry Summers has appeared with Goldman Sachs in tow at every point of inflection in this timeline.

Was the 2008 banking crisis orchestrated or accidental?

Lawrence ("Larry") H. Summers appears to have been greasing the skids for the Deep State in his own pay-to-play scheme. He took in over \$2 million in "speaking fees" from financial institutions in 2008 alone—before the so-called 2008 bank crash. The table below tells a different story. Summers appears to have fabricated the entire crisis. The chart even shows the connection to Iceland, where the crash allegedly started. The timeline tells us that for public figures like Summers and the Clintons, they had determined that they could charge exorbitant speaking fees as a pay-to-play system of cronyism. Such a patten of corruption is racketeering and punishable under both civil and criminal RICO laws.

Larry H. Summers

Yuri Milner

1991-1993, World Bank — Summers mentored Goldman Sachs' eventual Russian business partner, oligarchs Yuri Milner and Alisher Usmanov. He pressed a disastrous voucher system called "Big Bangery" and "globalbaloney" by fellow economists on the collapsing Soviet economy. Summers' recommendations gave birth to the modern, uber corrupt Russian oligarch.

Alisher Usmanov

Sandberg

1993-2001, U.S. Treasury Department — Protected by Bill & Hillary, Summers was instrumental in deregulating the banks by repealing Glass-Steagall Act. This removal of historic protections has fueled the corruption shown in this timeline. Summers' Harvard students, Sheryl K. Sandberg and Marnie L. Levine (Deutch), were at his side during all his time at Treasury. Remarkably, Sandberg now runs Facebook, and Levine runs Instagram.

Levine

Chandler

2001-2006, Harvard University— While Summers was president of Harvard, he oversaw the creation of the Facebook story for Harvard alum, James W. Breyer, and his PayPal Mafia, who had just sold PayPal to eBay and were trolling for "the next big idea." Mark Zuckerberg agreed to play along in the theft of Leader Technologies' social networking invention. These collaborators teamed up with Harvard Law professor James P. Chandler to use this new communications platform for both commercial and intelligence purposes. Each would feed the other. The spy state agenda was born.

Breyer

Blankfein

2008-2010, National Economic Council— Summers was appointed by Barack Obama to oversee the 2008 bank bailout. Levine became Summers' chief of staff. Goldman Sachs, Morgan Stanley and JPMorgan alone received over \$38 billion in taxpayer funds. The facts show that in Summers' appointment by Obama, the fox was assigned to guard the hen house.

Dimon

2013—not, Federal Reserve— Summers was iced out by his fellow economists from becoming chairman of the Federal Reserved. Over three hundred economists signed a petition against Summers running the Fed. This

was poetic justice for Summers' reckless "globalbaloney" foisted on the Russian economy over the objections of most of his colleagues.

Summers

Summers' early 1990's Russian voucher debacle looms large over his secret tinkering now; even after his colleagues rejected his proposed Fed leadership

2008, Banker Buds— Summers' 2008 financial disclosure may have inadvertently proved that the 2008 bank "bailout" was contrived to feed cash to the Deep State's public-private New World Order agenda. In reviewing Summers' herculean 2008 speaking schedule, hindsight shows that Summers was probably worried about failing again with the U.S. economy the way he did in Russia. What other explanation makes sense for this break-neck speaking schedule to the financial sector?

Summers was clearly a man on a mission, but what mission? Public corruption is illegal. On the heels of this break-neck schedule and the conflicts of interest it created, Barack Obama nevertheless flipped Summers the keys to the National Economic Council.

## Separation of powers is undermined by collusion among Harvard alumni

1. JPMorgan (Jamie Dimon) and Goldman Sachs (Lloyd Blankfein) do their banking.
2. Professor James P. Chandler crafts judicial decisions to support the agenda.
3. James W. Breyer and Gilman Louie (CIA) arrange financing and recruiting for the agenda.
4. Eric H. Holder, Jr. and Loretta E. Lynch at Justice ignore laws unsupportive to the agenda.
5. Penny S. Pritzker at Commerce enforces only regulations that support the agenda.
6. Preetinder Bharara plays attack dog as N. Y. U.S. Attorney.
7. Thomas J. Kim at the SEC bends securities laws to the will of the agenda.
8. John G. Roberts Jr. defined Obamacare as a tax to empower the agenda.

Can this pattern of public corruption be any more evident?

## Whistleblower: Facebook lies about 28 Zuckerberg Harvard computer drives and emails proved

On Feb. 28, 2016, Gibson Dunn LLP whistleblower (Facebook's attorney in Leader v. Facebook) leaked conclusive evidence that Mark Zuckerberg, Facebook and their other attorney, Heidi L. Keefe, Cooley Godward LLP, lied before the Leader v. Facebook trial, thus committing perjury. They testified that they lost all of Mark Zuckerberg's 2003-2004 Harvard emails and computer files. However, Facebook's experts Michael F. McGowan and Bryan J. Rose, Stroz Friedberg (paid by Facebook and directed by Gibson Dunn LLP) testified on Jul. 18-19, 2012 that 28 Zuckerberg hard drives and Harvard emails had been in the custody of Facebook's attorneys, Gibson Dunn LLP and McManus Faulkner LLP, during the entire Leader v. Facebook trial. The leaked spreadsheet shows seven pages of emails (292 to be exact) between Zuckerberg and Paul Ceglia from Zuckerberg's Harvard email account that were in Gibson Dunn LLP's possession during the entire case. Such conduct is highly illegal obstruction of justice.[357] [358]

Among the participants in these dubious offshore activities was DST USA II Limited, a key investor in Facebook, controlled by Russian oligarchs Alisher Usmanov and Yuri Milner. Usmanov and Milner invested several billion dollars in Facebook pre-IPO insider stock, brokered by Goldman Sachs. These investments pumped Facebook's valuation to \$100 billion. But, when he brought the abuses to his superiors, he was told to be "a good team player" and remain silent. On Jun. 12, 2016 , election corruption watchdog attorneys Cliff Arnebeck and Bob Fittrakis announced plans to file an election racketeering lawsuit after finding strong evidence of electronic vote rigging in the Democratic National Committee's counting of votes in the Bernie Sanders and Hillary Clinton battle. They found evidence in about eleven states where votes appear to have shifted from Bernie Sanders to Hillary Clinton. The chances of this kind of shift happening are considered to be statistically impossible. Computer security expert Stephen Spoonmore, who worked with Arnebeck on exposing GOP election fraud in Ohio (2004) noted that when exit poll data varies more than 2% from the electronic vote totals, the electronic vote totals are questionable. 2% is also the US government threshold for election fraud.[410]

Hillary's exploitation of the bulk data collected immorally by the NSA and the IBM Eclipse Foundation Deep State **massively profiles all citizens for political manipulation and population control**. **Kennedy's Shame:** "Golly shucks, I just never noticed Secretary Clinton's emails came from a private

**HDR22@clintonemail.com** server. What is a fella supposed to do? Follow the rules? I am only a career bureaucrat and Under Secretary of State. Gee willakers. (Lying and cheating is the 'new normal.' Didn't you get that memo?)"

Most observers believe that Kennedy directed the establishment of Hillary Clinton's server in late 2008 or early 2009 specifically to hid her Clinton Foundation activity from Freedom of Information Act (FOIA) requests. This "bells" testimony is remarkable since Kennedy was the person in charge of security for the State Department worldwide.

Kennedy evidently lied to protect himself, the Clintons and the Clintons' collusion with the NSA and secret White House spy agency, Kennedy's former employer.[\[488\]](#)

**On Jul. 05, 2016** , Americans for Innovation published proof of FBI Director James B. Comey's substantial conflicts of interest in decisions regarding whether or not to indict Hillary Clinton for her illegal use of private email servers while Secretary of State. Among his conflicts is his former directorship in the London bank and proven money launderer, HSBC. HSBC and its clients contribute heavily to The Clinton Foundation. Attorney General Loretta Lynch put Comey in charge of the decision despite these conflicts, and without full stepping aside in the wake of her secret meeting with Bill Clinton on the Phoenix Sky Harbor Airport tarmac a few days earlier on Jun. 30, 2016. Bill Clinton had appointed Lynch as a U.S. Attorney in the Eastern District of New York in 1999, thus making this meeting highly unethical since there was an active FBI investigation in process.[426]

On Jul. 24, 2016 , previously stonewalled emails were released to Citizens United in a court-ordered FOIA disclosure. Researchers also dug up copies of Arkansas Secretary of State corporation registrations for the Clinton Foundation and its 30 aliases. Among the emails was proof that the same Williams & Connolly LLP law firm that set up Clinton Foundation in 1997 also represents both Hillary Clinton, the State Department and IRS in the Clinton and Obama Benghazi, private server, IRS and conservative targeting scandals.[483]

Williams & Connolly LLP is also tied to the secret White House spy agency formed in 1995 by Bill Clinton's Executive Order 12958. This order was likely drafted by Clinton legal confidante James P. Chandler—who also advised the FBI, NSA and Judiciary. This secret agency grew legs under George W. Bush and has been running under Barack Obama using warrantless wiretaps on anyone on the planet to gather dirt for blackmail and coercion, we believe. This explains how Bill Clinton's speaking fees could be so consistently extravagant. We believe that these globalists need Hillary Clinton's election to perfect their globalist takeover, which is not yet complete.

The B6 exemption is reserved for personnel and healthcare records. B7C is reserved for unwarranted invasion of personal privacy. It is inconceivable that the person handling Secretary of State Hillary Clinton's emails can be protected under B6 or B7C. These reasons for obscuring Mystery Man's identity appear to be fraudulent on the part of the Justice Department headed by Attorney General Loretta E. Lynch.

In addition, Mystery Man, under the direction Hillary's errand girl Monica R. Hanley , transferred Hillary's 2009-2012 email stored on an Apple MacBook to the newer email server being setup for her by Bryan Pagliano because she did not want to lose it. The FBI says that Mystery Man used a "dummy" Gmail account to move the 2009-2012 emails from the MacBook to the second Pagliano system managed for the Clintons by Platte River Networks in Colorado. Such a transfer breached the security and confidentiality of the transaction because Gmail/Google retains a perpetual, worldwide, irrevocable license to all content uploaded to Google. Most Gmail users are unaware that they license all their rights to emails and documents to Google. Google can then use, sell or publish the content the moment they "Agree" to the 1,500+ page (incl. links) user license agreement. The section titled "Your Content in our Services" is very clear:

"When you upload, submit, store, send or receive content . . . you give Google . . . worldwide license to use, host, store, reproduce, modify, create derivative works, communicate, publish, publicly perform, publicly display and distribute such content . . . # Obama's Internet Fraud and Betrayal (ICANN give up)

On Oct. 01, 2016 , President Barack Obama promoted and allowed the management of ICANN (Internet Corporation for Assigned Names and Numbers) to be transferred offshore. This recklessness exposes all American and global Internet users to unconstitutional First Amendment censorship by unscrupulous globalist forces.

Stephen D. Crocker , chair of ICANN, participated in the Carnegie Endowment - sponsored Cryptography Conference on Jun. 07, 1993 where the plan for warrantless wiretapping of American citizens by the NSA was organized by Bill Clinton with his consiglieri James P. Chandler , III and Chief of Staff John D. Podesta .

Obama's chief legal advisor on this fraud is Philip L. Verveer , U.S. State Department Ambassador of Telecommunications, then chief counsel at the Federal Communications Commission (FCC).[497]

A Sep. 17, 2010 document that proves this ICANN fraud emerged in a Citizens United FOIA request Doc. No. C05982380. Under court order, the State Department handed over to Citizen's United a long stonewalled email exchange between Clinton loyalists at the State Department, including two Ambassadors, and the Clinton Foundation.[467]

One of the obscured recipients, Philip L. Verveer , has just colluded with President Obama to give up America's control of Internet domain management (ICANN). The problem is that Verveer has undisclosed (and therefore fraudulent) ties to the Clinton Foundation beneficiaries of this decision—including Goldman Sachs and Citigroup.

**WARNING:** Following OBama's ICANN betrayal, Chinese-style net censorship is next unless this decision is unwound. Will free people or immoral oligarchs define its future?

The Citizens United documents reveal a revolving door relationship among Barack Obama, the State Department, Bill & Hillary Clinton and The Clinton Foundation, also called the Clinton Global Initiative (CGI). In fact, it appears that CGI was running State Department policy. It reveals over 600 companies organizations, and individuals supporting The Clinton Foundation with tens of billions of dollars in projects, mostly outside the United States. They include numerous Clinton Foundation and Hillary campaign donors, including Goldman Sachs, JPMorgan, Barclays Bank, Citigroup, World Bank, Accel Partners (In-Q-Tel – C.I.A., Facebook), Microsoft, Cisco, IBM, John Podesta, Carlos Slim (part owner of The New York Times), Frank Giustra, Uranium One and Qualcomm, among many.

## George Soros bribes & controls media globally. He is the progenitor of the "fake news" attack on true news that exposes him

On Dec. 05, 2016, Malaysia Today published an expose of the Soros Media Empire that has so viciously exploited Malaysia's currency, the Malaysian Ringgit (MYR). It described how Soros manipulates media stories with disinformation that fabricates irrational investor panic in any currency market he wishes to hedge. This research helps confirm that Soros' minions are behind the current "fake news" attacks on conservative media outlets like Drudge Report, InfoWars, Before It's News, Stone Cold Truth, PrisonPlanet, The Real Alex Jones, Paul Joseph Watson, Steve Pieczenik, WorldNet Daily, The Free Thought Project, Breitbart, ZeroHedge and others who are exposing his agenda. **Moral: Soros is not an investing genius, he is an evil manipulator on a global scale.**[533]

On Dec. 10, 2016 , Alex Jones broke down the total absurdity of the king and queen of fake news, Brian Williams and Hillary Clinton, declaring an all out attack on what they deem to be fake news. Despite

Williams losing his job with NBC's Nightly News last year for spreading fake news and Clinton being caught lying about an attack on a Bosnia trip, not to mention voting for a war that killed thousands that was based on fake news, they continue to push forward in their attempt to shut down the alternative press that is rapidly growing and pushing out the faltering mainstream media. As the EU demands social media sites censor fake news and Reddit, Facebook and other sites begin blocking Infowars and other alternative media it is now alarmingly evident that there is truly a war on for our minds.[534]

680. **Between Nov. 2016 & Jan. 2017**, News reports claimed Rice's interest in the NSA materials accelerates after President Trump's election through his January inauguration. Surveillance reportedly included Trump transition figures and/or foreign officials discussing a Trump administration.

FBI secretly monitored and recorded communications between Russian ambassador, Sergey Kislyak and Lt. Gen. Michael Flynn, who later became President Trump's national security adviser.

After Trump's election, Obama officials took steps to ensure certain intelligence gathered regarding Trump associates was "spread across the government." One Obama official would later say it was because they were afraid once Trump officials "found out how we knew what we knew," the intelligence would be destroyed. However, Obama critics later theorized Obama officials were working to mount opposition to Trump's presidency.<sup>[799]</sup>

681. On Jan. 06, 2017 , new AFI research shows how the C.I.A. / NSA turned against American privacy rights. It revealed why reorganization of the C.I.A is a liberty imperative. The swamp of corruption in Washington, D.C. must be drained in order to save the American Republic.[544] [545]

682. On January 10, 2017 , the media reported on the leaked anti-Trump “dossier” compiled by a political opposition research group containing unverified and at least partly untrue allegations of misconduct involving Trump and Russia.[799]
683. On Jan. 12, 2017 , the Obama administration finalized new rules allowing the National Security Agency (NSA) to spread certain intelligence to 16 other U.S. intel agencies without the normal privacy protections. President Obama commuted all but the last four months of Manning’s sentence for leaking intelligence information to WikiLeaks.[799]

## Women's March on Washington organized by rogue elements of the C.I.A.? Admitted C.I.A. Agent Feminist Gloria Steinem was a speaker .

On Jan. 17, 2017 , the government and quasi-government / secretly nationalized ("public-private") organizations that likely comprise the rogue, unelected, unaccountable C.I.A. shadow government "Deep State" were identified.[569] The C.I.A. has been deceiving the American public for many decades.

For example, the C.I.A. formed and perpetuated the fraudulent American "feminist" movement starting in the late 1950's through their agents including Gloria Steinem, NOW (National Organization for Women), Ms. Magazine and the Independent Research Service (1959-ca.1968 ), as now revealed in video taped testimony from Gloria Steinem released by the JFK Assassination Archives where she was deposed about her role in the Independent Research Service, a C.I.A. front.[568]

<https://youtu.be/pm-PFawZ0Ms> | Raw \*mp4 video file

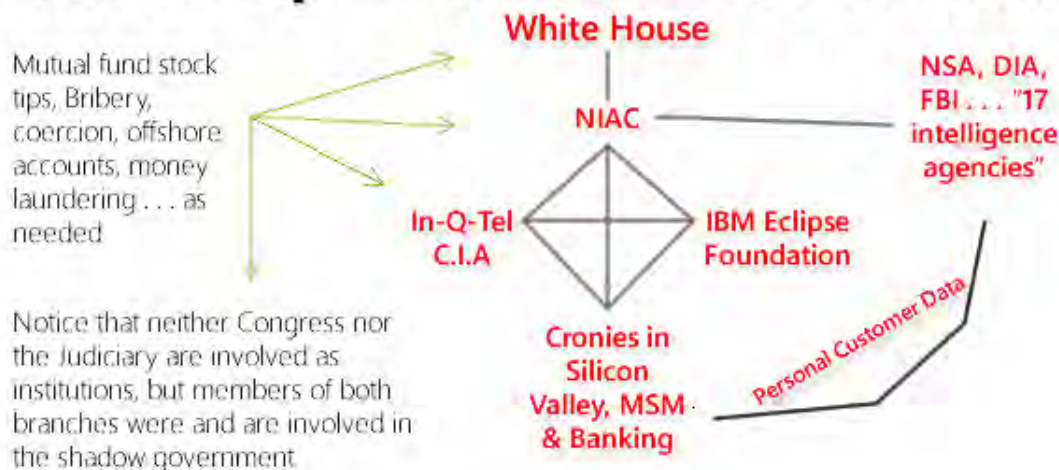

These Steinem revelations beg the question about what role the C.I.A. Deep State played in the sometimes violent and certainly abusive "Women's March on Washington" (the C.I.A. agent and feminist fraudster Gloria Steinem was a speaker; she claimed to speak for "We the People" and a "deep democracy"—a phrase certainly full of hidden meaning given her long association with the C.I.A. Deep State shadow government) the day following the inauguration of Donald J. Trump. Given Mr. Trump's skepticism about the role of the U.S. intelligence services in supporting Hillary Clinton's candidacy and the George Soros globalist agenda, the skepticism appears justified.

When will these unelected C.I.A. operatives stop meddling in the affairs of the

American Republic? We the People have had our fill of these powermongers whose only real work is treachery disguised as "national security." Enough.

Law professor James P. Chandler drafted much, if not all, of these executive orders and presidential directives through all four Administrations (1989-2017)—he authored the Economic Espionage Act of 1996, among others; Chandler also became Leader Technologies' traitorous patent attorney (2000). He consulted to the Patent Office that developed new procedures to enable globalist infringers to steal promising patent applications in the name of "patent reexamination." Obama's Patent Office, director David J. Kappos (2009-2013) was a Chandler advisor and intellectual property counsel to IBM, the chief supplier of technology to the Deep State shadow government, to whom Chandler shuffled Leader Technologies' social networking invention to enable the Deep State spy networks.

PRESIDENT TRUMP: "I think the media is the opposition party in many ways," the president said on "The Brody File," a program on CBN . On Feb. 22, 2017, The Intercept, founded by Glenn Greenwald—The Guardian investigator who broke Edward Snowden's story—just published a major investigative article on how Peter Thiel and Alexander Karp, two of the founders of Palantir Technologies, helped the NSA spy on the whole world. The leading investor in Palantir was the C.I.A.'s In-Q-Tel venture capital firm that illegally invests in private companies as a public institution. In-Q-Tel's CEO was Gilman Louie, a director of the National Venture Capital Association (NVCA) when Facebook's James W. On Mar . 07, 2017 , globalist eugenicist Bill Gates is surprised by a question about his and his wife Melinda's Bill & Melinda Gates Foundation advocacy of global eugenics programs for forced mass inoculations that contain "kill switches" like SW-40. Eugenics is a "set of beliefs and practices that aims at improving the genetic quality of the

human population." These principles were implemented by Margaret Sanger in the creation of Planned Parenthood in 1916, and by Adolf Hitler in his Final Solution plan to annihilate Jews, gypsies, homosexuals, Poles and Slavs, among others, in order to purify the Aryan blood lines that they considered to be superior and preferred. Remarkably, the Klu Klux Klan (KKK) promoted Sangers' Democratic "urban plantation" agenda as a method for culling what were seen to be inferior African-American genetic pools in the growing inner cities, as well as poor rural white populations in Appalachia, among others.[625] See also Apr. 11, 2011.

Watson was a Harvard Law classmate of Barack Obama. Remarkably, just two days earlier, Obama had made an unaccompanied trip from Washington, D.C. to Honolulu. ## The C.I.A. originated & funded (evil) "fake news" on a global rogue scale

**On Mar . 17, 2017** , Joel Whitney's new book, "Finks: How the C.I.A. Tricked the World's Best Writers," explores how the CIA influenced acclaimed writers and publications during the Cold War to produce subtly anti-communist material. During the interview, Robert Scheer, Robert Scheer Intelligence, and Whitney discuss these manipulations and how the CIA controlled major news agencies and respected literary publications (such as the Paris Review). Their talk comes at a particularly tense time in American politics, as accusations of "fake news" and "Russian propaganda" fly from both sides of the aisle. But the history detailed in Whitney's book presents a valuable lesson for writers hoping to avoid similar manipulations today. Scheer opens the discussion with the question: "Were they really tricked?" "It could have been 'paid,' it could have been 'subsidized,' it could have been 'used,' it could have been 'collaborated with,' " Whitney responds. "So yeah, it might have been any other verb there besides 'tricked.'"[628]

Given this history of fake news, the current attempt by the Deep State shadow government to silence the criticisms from the alternative media by labeling them fake news is truly evil. The Book of Romans, Chapter 1: 18, 25:

"For the wrath of God is revealed from heaven against all ungodliness and unrighteousness of men who suppress the truth in unrighteousness. . . For they exchanged the truth of God for a lie, and worshiped and served the creature rather than the Creator, who is blessed forever. Amen.

To make matters worse, Cisco's official response is to pretend that the "bug" was unknown to them, despite their registering encryption backdoors into all their products with the National Institute of Standards and Technology (NIST) DRBG Validation List.[647]

However, Trump supporters say the leak was an attempt to frame damning revelations as they are coming to light: that the Obama administration was, indeed, surveilling the political campaign of at least one opponent. Steele: Today, "NSA is surveiling and C.I.A. is blackmailing politicians . . . this is not legitimate intelligence . . . **the U.S. intelligence community is a fraud.**"

On Apr. 17, 2017, veteran C.I.A. executive agent, Robert David Steele, says the rogue C.I.A. is now a "dangerous fraud" where the NSA spies on and the C.I.A. blackmails U.S. and overseas politicians.

Robert David Steele served the C.I.A. with distinction in the Clandestine Service (1979-1988) while a U.S. Marine Infantry Intelligence Adjutant (1976-1996). His exemplary productivity led to appointment as #2 civilian responsible for establishing US Marine Intelligence.[671]

Robert David Steele TRANSCRIPT (starts at 3m23s below)

**"The fact is, the U.S. intelligence community is a fraud. And now it's a dangerous fraud, because since 9/11 the NSA has basically been surveiling, spying on all U.S. politicians, and the C.I.A. has been blackmailing U.S. politicians, including Senator John McCain and Senator Lindsey Graham.**

And, the same is true overseas. The American intelligence money has corrupted other intelligence services, certainly including the Australian intelligence service, as well as the United Kingdom.

And, we now know that, and I've written eight books on this point, we now know that the craft of intelligence is a very righteous, decent craft. It's about decision support. It's about knowing what the question is, knowing who knows, collection management, processing the information from many sources, properly visualizing it, and then presenting it to a decision maker on a single index card with three colors: red, yellow and green. OK, so the craft of intelligence is very, very important.

The intelligence community [today] does not do intelligence. It does **spies and secrecy that promote war and waste and bribery**. It does not do decision support."

Simultaneously, he sued his law partners to seize control of the Leader billing claim. In the process of mediation in the case, Donchatz lied to the court multiple times. Years later, the Cleveland Bar Association filed a disciplinary complaint against Donchatz for cheating multiple clients, including Leader. Notably, Donchatz was formerly an investigator for the Disciplinary Counsel who "characterizes himself as an expert in ethics' and has used the moniker 'the ethics monster'" according to the Ohio Supreme Court.

The Ohio Disciplinary Council ruled against Donchatz and suspended him for two years. Donchatz appealed to the Ohio Supreme Court. In his hearing (video below), Donchatz lied again. The justices clearly believed that Donchatz is a predator and suspended him indefinitely.

At one point during the Leader representation, Donchatz disclosed that he was invited to summer vacation in the Hamptons at Jim Swartz's estate. Swartz is a partner of Accel Partners LLP, one of Facebook's largest shareholders. Evidently, Donchatz was recruited to harass and try to destroy Leader Technologies from the inside with endless legal machinations.[\[750\]](#)

727. On May 17, 2017, former FBI Director Robert S. Mueller was appointed by Rod J. Rosenstein, Assistant Attorney General, as special counsel to oversee the investigation into alleged Russian interference in the 2016 U.S. elections. Neither Mueller nor Rosenstein disclosed their long personal relationship creating a conflict of interest. Rosenstein did not disclose his decades old conflict of interest concerning his wife, Lisa H. Barsoomian, who was mentored by Mueller and his replacement James B. Comey. Barsoomian actually represented Bill Clinton in Hamburg v. Clinton, 98-cv-01459-TPJ (DC District Court) and its appeal Hamburg, Al v Clinton, William J., Case No. 99-5053 (DC Circuit Court). These conflicts of interest are egregious and taint the entire special counsel proceeding. Mueller, Comey, Barsoomian and Rosenstein were all Washington, D.C. U.S. Attorneys during 9/11 and very evidently played a role in the planning and cover-up of C.I.A. involvement in 9/11.[735]

"Since George Soros became interested in global warming a few years ago, we have gotten up to speed on the issue and what is required to meet the climate challenge, learned about other funders' efforts, and intervened here and there. OSI has made or is in the process of making a couple of substantial investments in key climate initiatives: a) George Soros pledged \$10,000,000/year for three years, beginning in 2008, to the Alliance for Climate Protection, founded by AI Gore" [745]

# Evident Mueller Deep State hit job on Donald Trump

On Jul. 03, 2017 , Russia probe special counsel Robert S. Mueller, adding to his own conflicts of interest, appointed DOJ assistant U.S. Attorney Andrew D. Goldstein to the probe. In 2009, Goldstein represented JPMorgan Chase and is therefore heavily conflicted in this matter. JPMorgan had just received \$25 billion in TARP bailout funds, then in 2013 paid a \$13 billion penalty for selling fraudulent mortgages that prompted the bailout. In 2010, Goldstein went to work for U.S.

Attorney Preetinder Bharara in the Southern District of New York. Neither Bharara nor Goldstein prosecuted even one of the big bank recipients of the 2008 bailout managed by Clinton/Obama crony Larry H. Summers. Facebook chief operating officer Sheryl K. Sandberg was chief of staff for Summers at the Clinton Treasury Department and a known Hillary Clinton supporter. Therefore, Goldstein's many close associations among JPMorgan, Facebook, Summers, the Clintons, Facebook, the DNC and Obama present substantial conflicts of interest dictating his refusal from this matter. JPMorgan was a substantial support of Bill & Hillary Clinton, Barack Obama and the Democratic National Committee. His bias against President Donald Trump is substantially evident. ## 735. Leader/McKibben served Miller Act Notice on the White House for the theft of their social networking inventions by r ogue Deep State intelligence operatives

On Aug. 03, 2017 , Michael T. McKibben and Leader Technologies, Inc. filed a Miller Act Notice[773] that was served on President Donald J. Trump at the White House. TThey claim the outright theft of their social networking inventions beginning in Feb. 2002 when they first met patent attorney James P. Chandler, III, who failed to disclose that he was an agent of the Deep State shadow government run by President Bill Clinton. The Miller Act Notice says the damages are valued at least \$40 billion for historical damages, which they say is not actually close to the real number, and \$184 billion per year in ongoing annual license fees. It appears that these amounts will be paid by the surety bond holders who supply the federal government's intelligence apparatus, companies like IBM, Microsoft, Xerox, etc. This puts the payout in the coming years at well over one trillion dollars. The claim is after taxes, which means the government may generate \$20 billion or more per year in taxes from this claim as the bond holders pay out.

Inventor Michael McKibben included a short video explaining the circumstances which are covered in this blog. He explains how Leader Technologies discovered that their patent attorney, James P. Chandler, stole their social networking invention and fed it to IBM and the Deep State rogue shadow government. He also describes his former work in the former Soviet Union where he observed the death of the globalist assault on Christianity in Russia, which is now being repeated in America.[771]

736. On Aug. 24, 2017, new research proves that Leader Technologies' former patent counsel James P. Chandler, III, stole Leader's social networking invention and gave it to his other client, IBM, to use as a global mind control system. IBM has been engaged in mind control ever since they started supplying computers to the Nazi Party in German in 1933.

The [Bluebird Report to Congress \(1999\)](#) revealed that:

“Between 1945 and 1955, 765 scientists, engineers, and technicians were brought to the United States under Overcast, Paperclip, and similar programs. It has been estimated that at least half, and perhaps as many as 80 percent, of the imported specialists were former Nazi Party members.”[781]

At the end of WWII, the newly-formed C.I.A. co-opted some 1,600 Nazi scientists, brought them to the U.S. and allowed them to continue their research. Some of them had worked on a Soviet mass mind control technique called [AGITPROP](#) (Agitation Propaganda).[785]

AGITPROP stages events with messages reinforced by media, news, films, literature, plays, pamphlets and other art forms to demonize opponents and condition the general population for an eventual crackdown on those opponents.

FIG—IBM FIRST CENTRALIZED DATA ON CITIZENS FOR NAZI, GERMANY STARTING IN 1933. Today, IBM and the C.I.A. have continued that goal with different packaging, calling it IBM "The Internet of Things." The illegal mass surveillance of Americans has been bad at stopping terrorists, but it has been good at collecting all information about a person (work history, bank accounts, education, political beliefs, spirituality, opinions, relationships, health history, etc.)—the real goal of the program—to develop a highly accurate mathematical profile. Author Edwin Black shows how this is exactly what IBM achieved for Adolf Hitler that made his "Final Solution" against the Jews so effective. The Nazis had embraced the teaching of American eugenicist Margaret Sanger (Planned Parenthood) in their beliefs about race and genetic superiority. Those same goals have been repackaged with cute emogis to lull citizens to sleep while their civil liberties are destroyed . . . in the name of safety and counter-terrorism.

On Oct. 16, 2017, American Intelligence Media (AIM) laid out the takedown of the American Republic, titled LOCK DOWN ON PRISON PLANET ALMOST COMPLETE, HOW THE U.S. MILITARY'S CONTROL OF SOCIAL MEDIA HAS ALREADY IMPRISONED YOU AND THROWN AWAY THE KEY. AIM revealed the twisted rationale for the theft and weaponization of Leader Technologies' social networking invention. AIM alerted readers to the grave dangers of the weaponization of the internet and social media. A new technological revolution is taking place that will affect all of us. They make it sound so cool and fun – the Internet of Things—but it is nothing more than a self-imposed prison that will eventually control you 24/7 once you connect into the network. # The Deep State Shadow Government

## The American Republic must Drain this Swamp

Rogue Agents of the Central Intelligence Agency (C.I.A.) promote a globalist agenda for a corporate-run "new world order" technocracy. These **evil people** only pretend to care while they demean "deplorables," line their pockets & laugh at the U.S. Constitution.

Almost nobody would realize that all these people, in some way or another, are working for a secret rogue C.I.A.
